

## City of Burlington Rainbow Crosswalk Specification and Installation

### Technical Specifications

- White crosswalk lines at each end of the rainbow; 10cm each
- Each colour is to be 35 cm and there are 8 colours; total of 2.8m
- Assumed that black will be the first colour for cars travelling Westbound (towards Hamilton)
- Each colour is to go the end of pavement; lengths may vary for each colour, in order to match up to radius of curve
