Official Plan Amendment Number XX to the Town of Oakville’s Livable Oakville Plan

Constitutional Statement

The details of the Amendment, as contained in Part 2 of this text, constitute Amendment Number XX to the Livable Oakville Plan.

Part 1 – Preamble

1. Purpose and Effect

The purpose of this Official Plan Amendment is to permit an increase in the building height to facilitate the development of two mixed use buildings with three towers that are 44, 50 and 58 storeys in height, inclusive of a 6-storey podium element. The current maximum height is set at 20-storeys.

2. Location

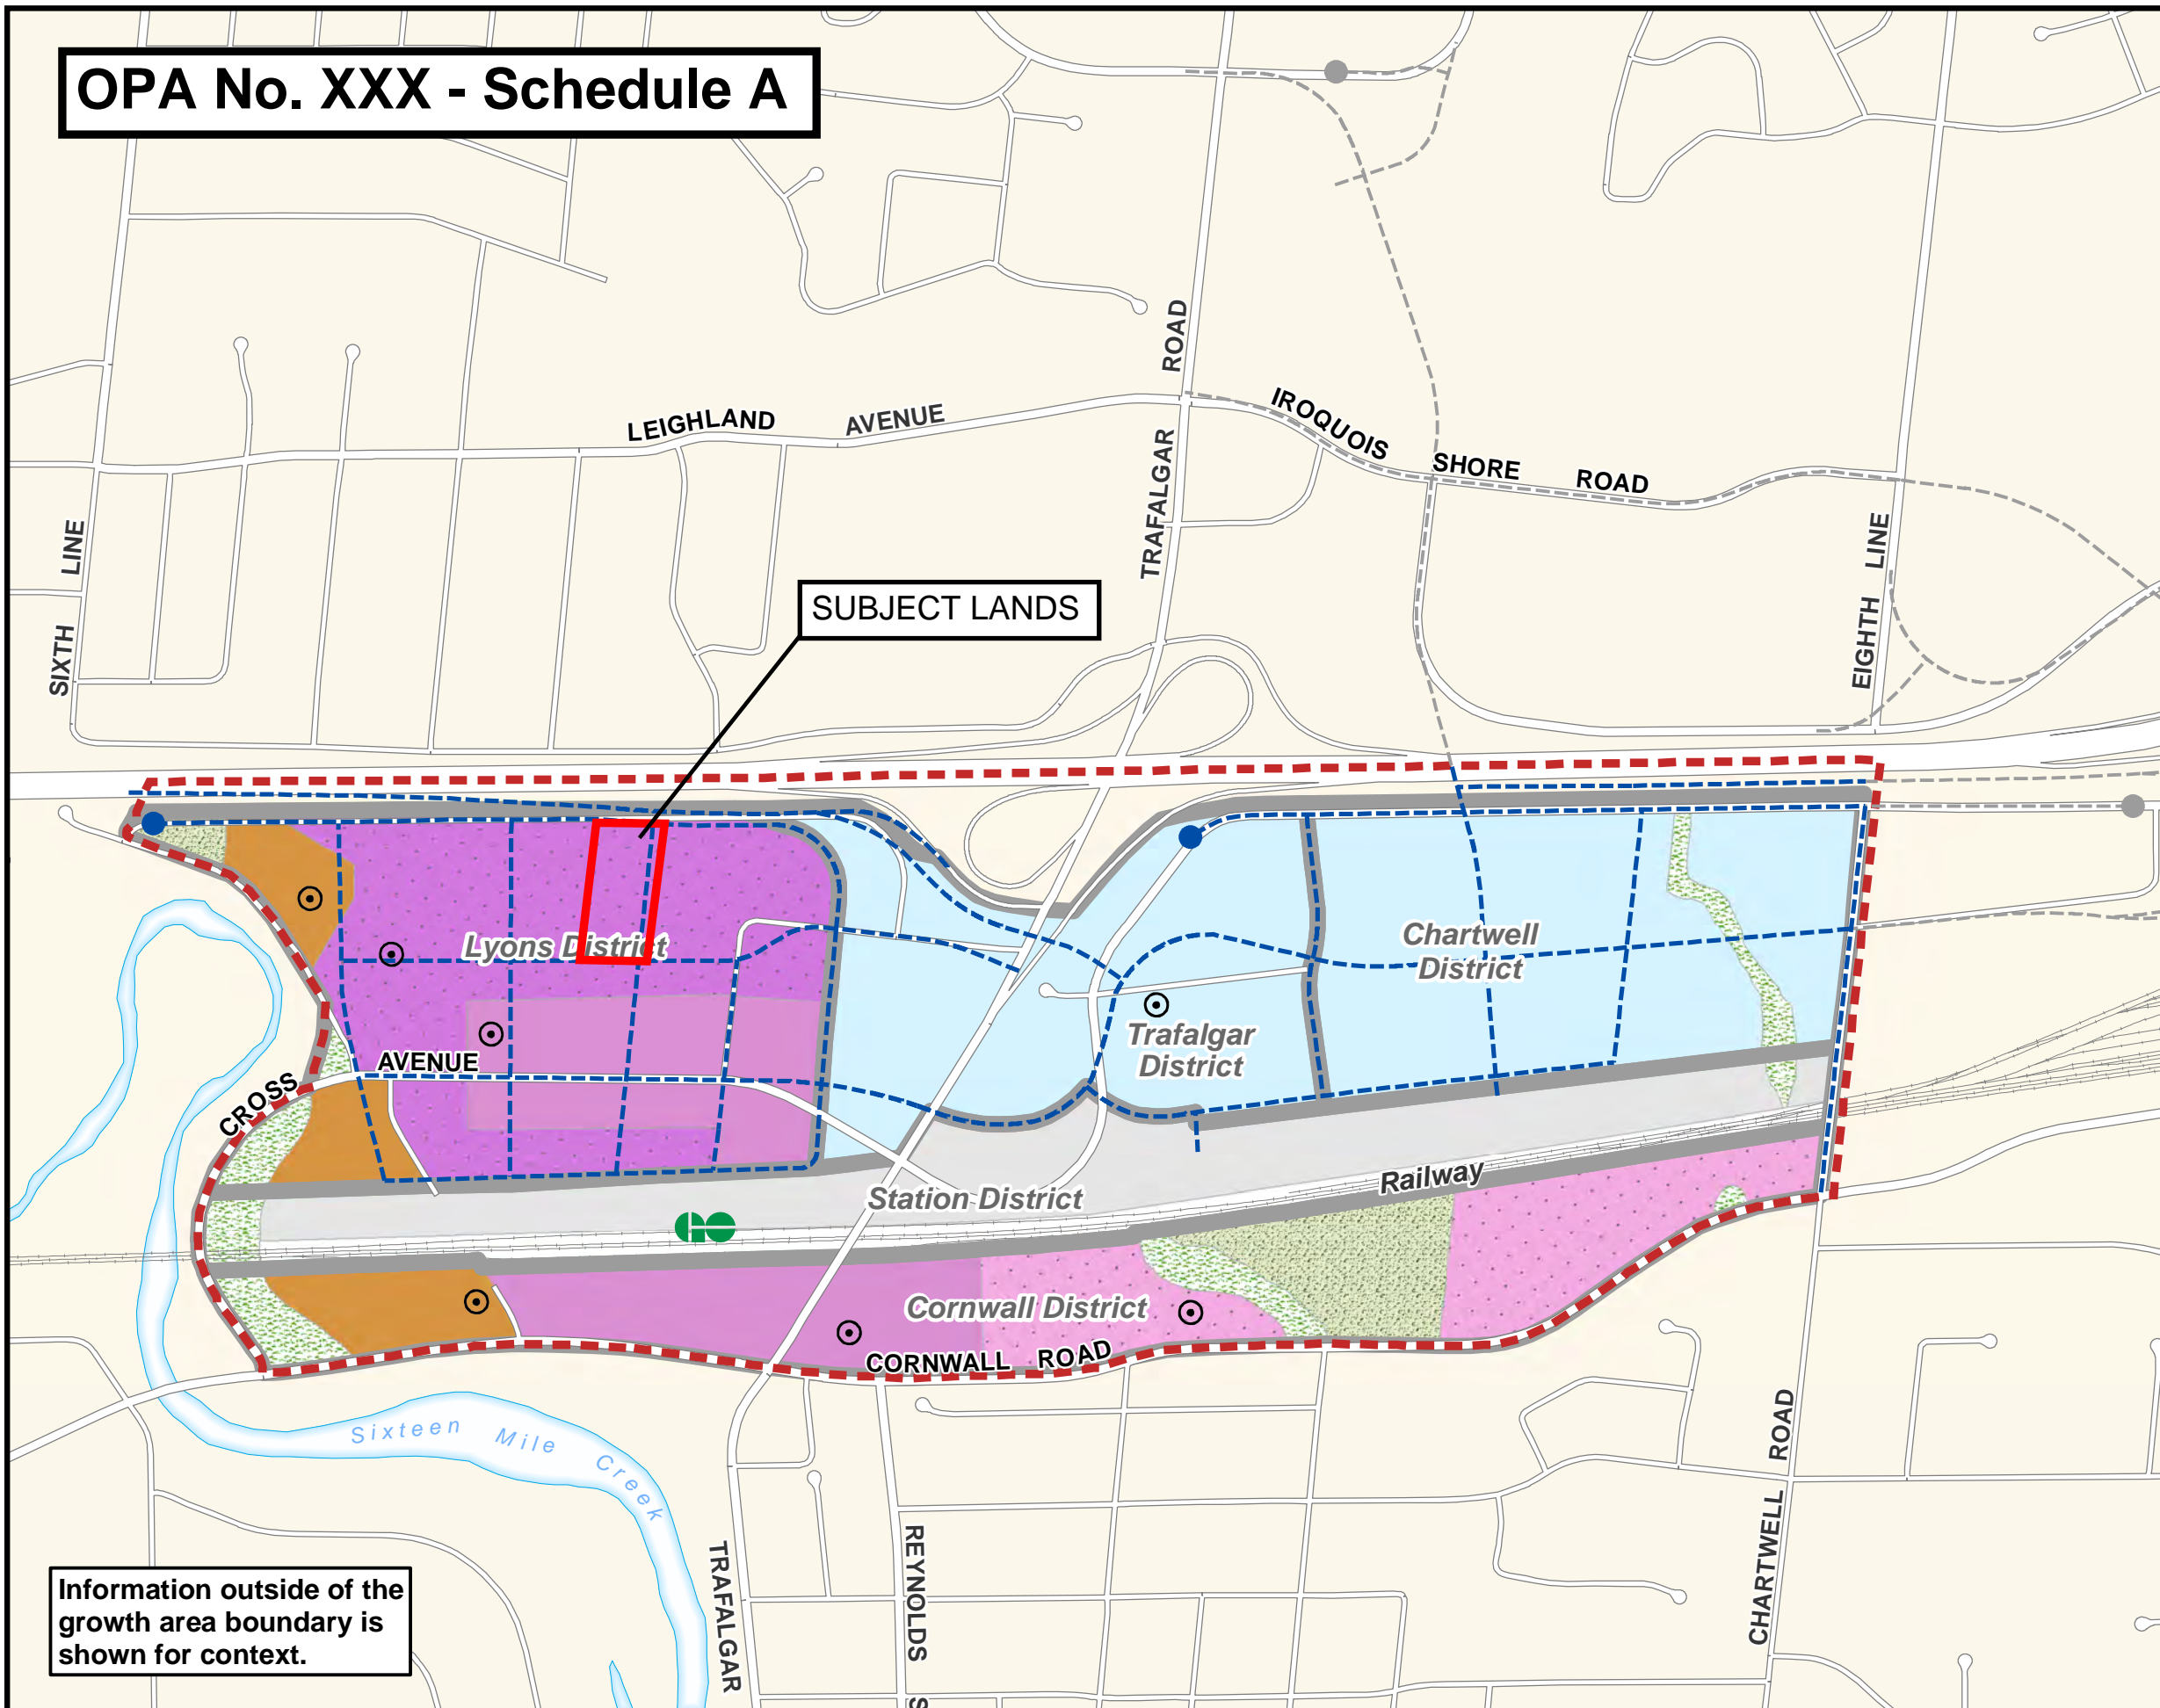

The lands subject to this amendment are municipally known as 166 South Service Road East, located on the south side of South Service Road East, midblock between Trafalgar Road to the east and Lyons Lane to the west. The lands are approximately 11,902 square metres in size with frontages of approximately 76 metres on South Service Road East and a depth of approximately 157 metres. The lands are shown on Schedule A attached hereto.

3. Basis

- The subject lands are designated “Urban Core” in accordance with ‘Schedule L1’.
- An increase in the permitted height and density will support the Town’s objectives for intensification within the Midtown Oakville Urban Growth Centre, the part of the town that is planned to accommodate the greatest level of intensification through mixed use and transit-supportive development.
- The proposal provides transit-supportive densities in proximity to existing and planned higher-order transit, including the Oakville GO station and Trafalgar Road Bus Rapid Transit (BRT).
- The proposal is consistent with the policies of the Provincial Policy Statement and conforms with the policies of the Growth Plan for the Greater Golden Horseshoe and the Region of Halton Official Plan, and generally conforms with the policies of the Liveable Oakville Official Plan.
- The proposed amendment and implementing zoning would have the effect of supporting the planning and urban design objectives of the Uptown Core areas and will provide well-designed mixed-use buildings
