
Rooftops and Red-Tape

How to Make a Housing Crisis

A presentation by a young person

Young people are
hopeless, fearful
and don't know what
to expect

Facts

→ **Province and Feds giving money**

Money to be used to enable new units

→ **Awarded to cities who take
action the quickest**

Much of it is already gone. See staff
report for already accepted
applications.

Unacceptable Timeline

Concerns

Common concerns from councillors are addressed

→ **Where does the money come for four as of right?**

Money can be used to help the town adapt

→ **Unclear scope?**

Please... compare to other cities.
Oakville is the last city in the GTA to make a successful bid

Are we uniquely slow?

Why is Oakville dragging its feet?

Hamilton, Burlington, Mississauga and Toronto already approved

We are **uniquely** slow

I want to tell others that
you care...

What do I point to?

—
**The housing crisis is
happening NOW**

We need a faster response

Do this today, seriously...

- Approve 4-as-of-right town wide
(Should've been done 10 years ago)
- Approve 800m buffer around Sheridan
(Help out the students now)
- Get working on CPPS
(Bring your housing policy into this decade)
