

APPENDIX G

EMAIL 16 November, 2023

Hi Mr Charles,
Thank you for hosting the meeting this evening.

Mr Palmer is to be congratulated for calm and diligent presentation.

From the comments presented by Mr Ron Palmer, it is clear there will be many decisions to be made in terms of type of park (green, not green, urban, parkette, POPS, etc), location, interconnectedness and so on. Given this, I believe it is very important to maintain strong governance of the key decisions being made and advocate for a governance model that empowers Town Staff to make recommendations to Council on Park Lands, location of lands, money in lieu, etc , however, decision making remains with our elected Council members.

Sincerely,

Ken Miner
