

**Subject:** Vote NO!

Vote NO to the proposed destruction of a solid, safe community where we and our children walk and play safely without fear of strangers driving through our streets.

We have lived in this lovely neighbourhood since 1987 and have watched our and our neighbours' children grow and thrive in an atmosphere of positivity and freedom to play safely. The homeowners here have a pride of ownership where one homeowner always watches out for another.

It is clear that this "proposal" is motivated by greed with no respect or thoughtfulness given to the quiet subdivision that we call home. What point is there to destroy a solid, safe and well maintained community that has existed for over thirty years? What benefit - other than lining a developer's pockets - will be achieved? The homeowners who live here have worked hard so that they could purchase a single family home in which to raise their family and chose Oakville for its reputation and high standard of living.

This proposal is upsetting and frightening as the value of our homes will be considerably compromised. Prospective buyers will disregard our neighbourhood as they will want their families to live in a safe, well cared for community and not next to a property that houses people who consider their portion of the rental premises a "dorm" room.

We do not want investors to purchase homes. They do NOT live in these homes. They are not interested in being a homeowner here and care for their property. Would these investors or yourself choose to live on a street with a disjointed hodge podge of houses and apartments? If the answer is no, then why would you support a proposal that would create such a terrible mix of properties in our subdivision that has existed and provided a welcome home to so many?

Vote NO to this proposal. It is a slap in the face to Oakville and what it stands for - and what we stand for as homeowners who treasure our homes, our safety, and our community.

Best regards,

Virginia & Gerard Aumais
