Cart Located at the Canadian Tire at 2510 Hyde Park Gate in Oakville.

My Hot Dog Cart is unique as it is towed behind my vehicle to and from Canadian Tire each day.

Only permanent structure on the property is a small 3'6" x 6'9" Shed that I work out of.

Hot dog cart gets placed in front of my shed during working hours, removed and brought home after.

Very minimal/no sidewalk interference as my cart is quite small, and my shed is small also.

Cart has operated in this location since original store was built 25 years ago, until I took over last year.

Site Plan drawings, additional drawings and photos of the sidewalk, cart, and shed included in this application. Photos show what cart and sidewalk look like during working hours, and what it looks like when I am closed.

Application seeks Minor Variance Approval to permit me to continue working.
