

To whole it may concern,

Please reconsider to keep the land at ford drive and Kingsway drive as parkway belt land and not business employment land. Coyotes and foxes are coming into our neighbourhood more often now to hunt for food. We need them to stay in their homes in green land to protect our children and house pets from getting hurt. Please don't ruin the beauty Claire has with all its paths and green land that connects them.

Sincerely ,

A very concerned Clearview resident,

Andrea Heck
