Subject: Midtown - please forward this email to the Councillors and Mayor

Thank you for listening to your Oakville residents and reducing the population to 35,000 residents and jobs. A much more liveable number! (Although it's still high.) The updated draft Official Plan Amendment gives us hope that you will plan for a Midtown we can all be proud of. The delegations that you have heard detail so many areas of concern, (health, affordability, quality of life, transportation, density, height, infrastructure, pollution, energy, etc.), but have also shown how many of these issues can be resolved. Please use the expertise of our residents and professionals in their field to design a midtown for the future. Remember, we're the ones who live here, not the developers!

D. Dunlop
