

Good Morning,

The proposed development for this area will bring so much unnecessary traffic and noise to the clearview neighbourhood. We are already almost surrounded by business buildings and the traffic on ford drive is already unbearable. What exactly is the plan for that? We are already segregated from the rest of Oakville and now we will be even more so. The light pollution and noise from the highway is already enough. This needs to be reconsidered.

We have such a great community but school enrolment is already so low, this will also be impacted with further business developments surrounding a residential neighbourhood

We are disappointed in this decision . I have lived in this neighbourhood my whole life and I am sad to hear about this development right across from our home and children's park.

Please reconsider this decision

Rosanna and Daniel Mendola
