

Hello Town of Oakville Team

Please register this email against the proposed significantly high property tax rates.

I am a resident of [REDACTED] Oakville. With inflation now settling in but causing a major impact in the past 2 years plus high interest rates and volatile job market has hardly left space for financial breathing.

Meanwhile Oakville has expanded north of Dundas like Locust attacks on fields and the economies of scale should be in residents favor where Tax should either be maintained if not reduced.

Take into account this written communication against the town proposal.

Regards

Raza
