Subject: [EXTERNAL] Re: proposed official plan amendment, zoning by-law amendment and plan of subdivision 3056 Neyagawa Blvd.; Neatt (16 Mile Creek) Inc; OPA1321.02 24T-24006/1321, Ward 7

To whom it may concern,

I am writing to express my concern about this proposed development at the north west corner of Dundas/Neyagawa, regarding the development of seven towers– 16 to 28 stories, 2278 units/2000 cars/7000 residents. I believe this is a terrible idea for the entire community and surrounding area as this would create even more traffic congestion, security issues, basic strain on the entire infrastructure of this area not to mention pressure on community services and environmental concerns. While I am not opposed to housing development, this particular project would be a disaster for this area, not to mention the noise and disruption that would go on for some extended period of time! (I live very close by)

Please consider my rejection of this proposed plan when deciding its future.

In appreciation,

Louise Harrison

Oakville,
