The Joint Health & Safety Committee (JHSC) meets regularly to identify potential health and safety issues and bring them to the employer's attention and kept informed of health and safety developments in the workplace by the employer. The JHSC met on March 20, 2025. The JHSC continued their review of Health & Safety procedures to ensure ongoing compliance and completed a roundtable discussion that provided each representative an opportunity to share health & safety activities within their individual sites.

Site inspections were completed at each branch site by the JHSC committee member in conjunction with a leader on-site. The monthly workplace site inspections are to identify hazards within the worksite. If a hazard is identified, OPL JHSC will notify Facilities which will complete any corrective actions that may need to take place.
