Subject: Re: [EXTERNAL]

Good morning. Well, now we have fireworks going off all the time- in Brantford at least. We have other customs with their celebrations- it's too much as a whole. So, I think that they should be banned all together. So many fireworks contribute to noise and air pollution, they get annoying when they go on all night almost every night. It's too bad people can't be more responsible and considerate, but there you go. In addition, we have idiots shooting them off in public places (Toronto) and at people and in their backyards. I know this may not apply to Oakville, but it will probably get that way as fireworks do seem to be getting out of control, therefore, it is spoiled for everyone.
