2. Background and Basis

- Council adopted the Livable Oakville Plan on June 22, 2009. It was approved with modifications by Halton Region November 30, 2009, and was subsequently appealed. Following resolution of the majority of appeals, the Plan was approved at the Ontario Municipal Board with further

modifications on May 10, 2011. It was deemed to conform to the 2006 Growth Plan and be consistent with the 2005 Provincial Policy Statement.

- On October 22, 2022, the Ministry of Municipal Affairs and Housing published a notice to the Environmental Registry of Ontario (ERO) seeking feedback on a proposal to revoke the Parkway Belt West Plan, 1978, under the *Ontario Planning and Development Act, 1994*. The notice was updated on September 27, 2024 to advise the public that there has been no change to the status of this proposal and it is still being considered.
- On November 28, 2022, Bill 23, the *More Homes Built Faster Act*, received Royal Assent. It made extensive changes to several acts and regulations. The *Planning Act* was amended to, among other changes, remove most planning functions from certain upper-tier municipalities, including Halton Region, with an implementation date to follow. Significant changes were also made to the *Conservation Authorities Act*, impacting how conservation authorities operate and their role in development and natural resource management.
- On June 6, 2024, Bill 185, the *Cutting Red Tape to Build More Homes Act*, received Royal Assent. This omnibus bill made changes to a wide range of legislation, including changes to Ontario’s land use planning framework. Among other matters, it removed the mandatory pre-consultation requirement for development applications and identified July 1, 2024 as the effective date of upper-tier planning changes for Halton Region.
- On April 6, 2023, the province released a proposed Provincial Planning Statement, 2023 to replace the Provincial Policy Statement, 2020 and the Growth Plan for the Greater Golden Horseshoe (Growth Plan). A subsequent draft was released for public comment on June 16, 2023 followed by another draft released on April 10, 2024. The final version of the Provincial Planning Statement, 2024 (PPS 2024) was released on August 20, 2024 and came into effect on October 20, 2024.

The Town will consider planning approval, financial and other incentives to support the <i>development of intensification areas</i>.</p>
8	4. MANAGING GROWTH AND CHANGE Growth Areas	<p>Revise the policy as follows:</p> <p>The majority of <i>intensification</i> in the Town is to occur within the Growth Areas as defined in Part E. <u>These areas are considered strategic growth areas.</u></p>

The greatest levels of height and density in the Town are planned for Midtown Oakville. It is to be a primary <i>intensification area</i> with employment, commercial and residential uses concentrated within the <i>major transit station area</i>. Midtown Oakville is planned to achieve a minimum gross density of 200 jobs and residents combined per hectare by 2031, in accordance with the <i>Growth Plan</i>. Reductions in minimum heights or densities within Midtown Oakville will not be permitted.

Lands outside of Growth Areas are predominantly stable residential communities which consist of established neighbourhoods. While the Plan encourages <i>intensification</i> generally throughout the <i>built-up area</i> urban area , it also recognizes that some growth and change may occur in these areas provided the <i>character</i> of the areas is preserved and the overall urban structure of the Town is upheld. <i>Intensification</i> outside of the Growth Areas including additional <i>intensification</i> opportunities such as infill,
