 NOESP North Oakville East Secondary Plan

Note:

This document is provided for information purposes only. It is not a comprehensive annotation of the effect of the proposed OPA on the Livable Oakville Plan. For accurate reference, please refer to the full text of the proposed OPA, which also modifies other sections of the Plan.

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>8.1 INTRODUCTION</p> <p>8.1.1 PURPOSE</p> <p>The purpose of the North Oakville West Secondary Plan is to establish a detailed planning framework for the future urban development of the North Oakville West Planning Area (also referred to in this Secondary Plan as the Plan Area, and as North Oakville West). The Planning Area is comprised of the 407 West and Sixteen Hollow industrial districts / employment lands located as identified on Figure G, Community Organization to the Official Plan.</p>	<p>Revise and insert into LOP new Section 1.1.a)</p> <p>Map reference not required as per construct of LOP</p>	<p>a) establishes the desired land use pattern for the lands within the Town, excluding the North Oakville East Secondary Plan Area</p>
<p>8.1.2 LOCATION</p> <p>The lands which are subject to the policies of the North Oakville West Secondary Plan are shown on Map 1, Area Context, and Figure</p>	<p>Delete, redundant</p> <p>Addressed in LOP new 1.1.a)</p>	

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>NOW1, Community Structure Plan, and are bounded by:</p> <ul style="list-style-type: none"> a) North: Highway 407; b) West: The centre line of Sixteen Mile Creek, and the westerly limit of Lot 25, Concession 1, N.D.S. c) South: Dundas Street (Regional Road 5); and, d) West: Tremaine Road. 		
<p>8.1.3 SECONDARY PLAN STRUCTURE</p> <p>The Secondary Plan includes the following maps:</p> <ul style="list-style-type: none"> a) Map 1 Area Context b) Figure NOW1 Community Structure Plan c) Figure NOW2 Land Use Plan d) Figure NOW3 Natural Heritage Component of the Natural Heritage and Open Space System including Other Hydrological Features. e) Figure NOW4 Transportation Plan 	<p>Delete, operational</p> <p>Map references not required as per construct of LOP</p>	<p>No Change to LOP</p>
<p>The text of the Plan is structured as follows:</p> <ul style="list-style-type: none"> a) Section 8.2 Community Vision; b) Section 8.3 Community Structure; c) Section 8.4 Sustainable Development Strategy; d) Section 8.5 Community Design Strategy; e) Section 8.6 Land Use Strategy; f) Section 8.7 Community Services Strategy; g) Section 8.8 Development Review; 	<p>Delete, operational</p> <p>Section references not required as per construct of LOP</p>	<p>No Change to LOP</p>

<ul style="list-style-type: none"> h) Section 8.9 Growth Management Strategy; and, i) Section 8.10 Implementation and Interpretation. 		
<p>8.1.4 PLANNING PERIOD</p> <p>The planning period for the Secondary Plan is from 2008 to 2021 and it will be reviewed a minimum of every five years. However, the Plan reflects the ultimate plan for North Oakville West and complete development may not be achieved within the planning period.</p>	Delete, operational	Addressed in LOP new 1.1.a)
8.2 COMMUNITY VISION		
<p>8.2.1 PURPOSE</p> <p>The community vision and objectives on which the Secondary Plan is based were developed when the North Oakville West lands were designated as “Urban Special Study Area”. They have been modified to reflect the results of the Secondary Plan process and are outlined in the following sections.</p> <p>The community vision and objectives represent expressions of general intent and are not to be interpreted as direct statements</p>	<p>Revise, replace</p> <p>Establish in LOP a new Section 27.7 Special Policy Areas.</p>	<p>North West Area</p> <p>The North West Special Policy Area – the North West Area – is located north of Dundas Street and south of Highway 407 between Tremaine Road and Sixteen Mile Creek, excluding the Hospital District and Palermo Village Growth Areas, and lands within the North Oakville East Secondary Plan area of the town’s 1984 Official Plan.</p> <p>The North West Area features a planned natural heritage system, which is part of the broader</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>of planning policy, rather they form a basis for the policies contained in the Secondary Plan. In particular, it is not proposed that they be applied directly in the evaluation of any development or redevelopment proposal.</p>		<p>Regional Natural Heritage System. This is the key structural element that defines the organization of other land uses in this part of the town.</p> <p>The North West Area is also an employment-focused greenfield area that, along with the neighboring Growth Areas and Residential Areas, is envisioned to become a complete community.</p> <p>The following area-specific policies provide a framework for change within the North West Area in addition to the other policies of this Plan.</p>
<p>8.2.2 VISION</p> <p>North Oakville should also be forward-looking. It should be a model of smart growth and social diversity. It should enhance the Town’s reputation for excellence and its capacity to link the past, present and future.</p> <p>The design of North Oakville West, together with North Oakville East, will generally reflect the “Transect”, a system of classification of human habitats from the most rural which is reflected in the natural heritage and open space system, to the most urban conditions, which is reflected in urban core areas. The goal of the transect-based system is to make it possible for North Oakville West, together with North Oakville East, to sustain a complete palette of neighbourhoods and employment opportunities.</p>	<p>Revise, insert into LOP new Section 27.7 North West Area</p>	<p>Vision</p> <p>The development of the North West Area as an urban community shall reflect Oakville’s distinct historical roots, with nodal development, prestige industry, and green linkages continuing to define Oakville’s unique landscape.</p> <p>The character and pattern of the community shall be significantly influenced by a planned natural heritage and open space system.</p> <p>Employment areas in the North West Area will provide a range of employment opportunities including prestige employment and office development. The jobs in the North West Area help to create a complete community.</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>In keeping with the Transect, North Oakville West, together with North Oakville East, is planned as a compact, pedestrian-oriented, urban community containing a broad range of housing opportunities ranging from executive housing on large lots to high rise apartment units.</p> <p>The character and pattern of the community will be significantly influenced by a planned natural heritage and open space system. This natural heritage and open space system is designed to protect the natural environment, provide a balance between active and passive recreation needs and contribute to the quality of life in North Oakville and the Town as a whole. A key component of the system will be the provision of an opportunity for residents and employees to use an extensive open space trail system.</p> <p>The natural heritage and open space system helps to create definable neighbourhoods in North Oakville. These neighbourhoods will be known for their walkable streets and their central nodes, which will include civic uses such as a transit stop and mail services, and may include a few small shops and services. These nodes will be popular neighbourhood meeting places and will generally be located within a five minute walk of the entire neighbourhood.</p> <p>The community will be well served by an interconnected transit network which will provide residents and employees opportunities for an attractive alternative travel mode within</p>		

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>North Oakville, and connections to the rest of the Town, as well as transit facilities which serve the Region and the Greater Golden Horseshoe.</p> <p>A business park located along Highway 407 in North Oakville East and employment areas in North Oakville West provide a range of employment opportunities to residents of Oakville including prestige employment and office development at Trafalgar Road and the Highway 407. The jobs available in the North Oakville West Secondary Plan Area, in combination with those jobs in the North Oakville East Secondary Plan Area, help to create a live-work community.</p>		
<p>8.2.3 GENERAL DEVELOPMENT OBJECTIVES</p> <p>The following general development objectives will guide the future urban development of the Planning Area.</p>	<p>Revise and insert into LOP new Section 27.7 Objectives</p>	<p>Objectives</p> <p>As the North West Area develops, the Town shall, through public actions and in the process of reviewing planning applications, use the following objectives to guide decisions.</p>
<p>8.2.3.1 Environment and Open Space</p> <p>a) To establish as a first priority of the Town, a natural heritage and open space system, within the context of an urban setting, the majority of which is in public ownership.</p> <p>b) To create a sustainable natural heritage and open space system which provides a balance between active and passive recreational needs and links to the existing open space system within the Town.</p>	<p>Revise and insert into LOP new Section 27.7 Objectives</p>	<p>To protect the environment and open space by:</p> <p>i) establishing a natural heritage and open space system, within the context of an urban setting, the majority of which is in public ownership;</p> <p>ii) creating a sustainable natural heritage and open space system, which provides a balance between active and passive recreational needs and links to the existing open space system within the Town;</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>c) To identify, protect and preserve natural heritage features within the natural heritage component of the natural heritage and open space system and ensure that their use respects their functional role as natural areas within the ecosystem.</p> <p>d) To incorporate measures intended to achieve the goals of environmental protection and enhancement including energy conservation, greenhouse gas reduction, and increased utilization of public transit.</p> <p>e) To preserve and protect ESA's, ANSI's, provincially significant wetlands and significant woodlands which form the core of the natural heritage component of the natural heritage and open space system, together with required buffers and adjacent lands intended to protect the function of those features and ensure the long term sustainability of the natural heritage component of the system within the urban context.</p>		<p>iii) identifying, protecting and preserving natural heritage features within the natural heritage component of the natural heritage and open space system and ensure that their use respects their functional role as natural areas within the ecosystem;</p> <p>iv) incorporating measures intended to achieve the goals of environmental protection and enhancement including energy conservation, greenhouse gas reduction, and increased utilization of public transit;</p> <p>v) preserving and protecting ESA's, ANSI's, provincially significant wetlands and significant woodlands which form the core of the natural heritage component of the natural heritage and open space system, together with required buffers and adjacent lands intended to protect the function of those features and ensure the long term sustainability of the natural heritage component of the system within the urban context; and,</p> <p>vi) permitting minor modifications to the boundaries of the Natural Heritage System as part of a planning application provided these modifications do not negatively impact the Natural Heritage System nor result in a significant decrease in its size.</p>
<p>8.2.3.2 Employment</p> <p>a) To create employment districts which</p>	<p>Revise and insert into LOP new Section 27.7 Objectives</p>	<p>To contribute to a complete community by:</p> <p>i) providing employment areas that support a</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>provide for a range of employment opportunities with access to major freeways, arterial road and transit systems.</p> <p>b) To reflect the strategic land use objectives as set out within the Halton Urban Structure Plan (April, 1994) especially regarding high quality, prestigious employment type uses along the Provincial Freeways.</p> <p>c) To create employment districts which complement and integrate the existing built form elements that are intended to remain within the community, and incorporate the best community planning and urban design practices available while integrating the area's natural heritage component of the natural heritage and open space system.</p> <p>d) To minimize travel time, traffic, greenhouse gases, servicing costs and energy costs through a variety of mechanisms, and particularly by providing an efficient land use arrangement with a mix of employment uses and tenures in close relationship to residential areas.</p> <p>e) To plan for and promote higher order employment densities at appropriate locations that maximize employment opportunities, particularly in areas where higher order/frequent transit service is planned.</p>	<p>Replace "district" with "area"</p> <p>Delete some objectives, redundant, operational</p> <p>The balance is addressed in LOP Section 14. Employment</p>	<p>range of employment opportunities with access to major freeways, arterial roads and transit systems</p> <p>ii) providing employment areas that complement and integrate the existing built form elements that are intended to remain within the community, and incorporate the best community planning and urban design practices available while integrating the area's natural heritage component of the natural heritage and open space system</p> <p>iii) planning for and promoting higher order employment densities at appropriate locations that maximize employment opportunities, particularly in areas where higher order/frequent transit service is planned</p> <p>iv) ensuring that permitted uses in the employment areas are compatible with surrounding land uses.</p>
<p>8.2.3.3 Urban Design</p> <p>a) To provide integrated community design</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 6.</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>that coordinates land use, the natural heritage and open space system, the street network and built form to reinforce the community vision.</p> <p>b) To integrate important views and vistas of the natural heritage and open space system within community design.</p> <p>c) To create an urban fabric characterized by a connected street system that is responsive to the natural heritage and open space system and existing land uses.</p> <p>d) To promote building design variety that promotes an active, safe pedestrian realm within the streetscape.</p> <p>e) To design street sections that promote a sense of scale and provide for pedestrian comfort.</p> <p>f) To promote building forms that address the street and minimize the impact of garages and service areas on the streetscape.</p> <p>g) To create retail and service commercial development that has a strong relationship to streetscapes and major pedestrian ways.</p> <p>h) To integrate community and institutional uses at landmark locations.</p> <p>l) To create high quality employment areas which are easily accessed by trucks and other vehicular traffic, as well as transit, bicycles and pedestrians.</p>	<p>Urban Design</p>	

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>8.2.3.4 Transportation</p> <p>a) To create a system of roads and transportation corridors which promotes the safe, efficient circulation of traffic, including transit and non-vehicular traffic.</p> <p>b) To establish an efficient and linked, safe pedestrian movement system (cycleways and walkways) along with an appropriate distribution of land uses so that employees do not need to rely on the automobile to meet the recreational, shopping and commuter needs of daily life.</p> <p>c) To establish a transportation system that complements and supports the existing and future urban structure and land use pattern.</p> <p>d) To promote transit opportunities through community design, including a “transit first” policy to ensure that development including the phasing of development, proceeds in a manner which will be supportive of the early provision of transit services.</p> <p>e) To explore all modes of transportation including the use of HOV lanes, express bus lanes and transit rights-of-way on the existing and future road network in Oakville, as well as other innovative approaches to transit.</p> <p>f) To promote both local and higher order transit opportunities through land use</p>	<p>Delete, mostly redundant</p> <p>Addressed in LOP Section 8. Transportation</p> <p>Revise “transit first” objective and insert into LOP new Section 27.7 Objectives</p>	<p>To provide for a transit first policy approach by requiring development to proceed in a transit supportive manner and through the early provision of transit services.</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
arrangements, building orientation and streetscape design.		
<p>8.2.3.5 Servicing</p> <p>a) To provide for water and wastewater services, together with storm drainage works, reflecting the requirements of the various levels of government and minimizing their impact on the natural environment.</p> <p>b) To ensure that the development industry absorbs its share of the cost in the provision of the necessary infrastructure.</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 9. Physical Services</p>	<p>No change to LOP</p>
<p>8.2.3.6 Cultural Heritage</p> <p>a) To encourage, where appropriate and feasible, the incorporation of cultural heritage resources, including their adaptive reuse, as part of the development of North Oakville West.</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 5. Cultural Heritage</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>8.3 COMMUNITY STRUCTURE</p> <p>8.3.1 PURPOSE</p> <p>Figure NOW1, the Community Structure Plan, establishes a range of components which define the general arrangement of land use and activity for the Planning Area.</p> <p>Each component of the Community Structure Plan has its own function which is described in the following sections, together with the ultimate population, housing and employment targets.</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 3, Urban Structure</p>	<p>No change to LOP</p>
<p>8.3.2 EMPLOYMENT DISTRICTS</p> <p>Employment Districts refer to land designed to accommodate development of predominantly employment generating uses including a wide range of industrial and office development. Limited retail and service commercial uses designed to serve the businesses and employees will also be permitted within the Employment Districts.</p>	<p>Revise, insert into LOP new Section 27.7 Development Concept</p> <p>Although this is addressed in LOP Section 3, Urban Structure, it's being retained as context for the Special Policy Area</p> <p>Reverse the order of Employment Areas and Natural Heritage and OS System</p>	<p>Development Concept</p> <p>The North West Special Policy Area is comprised of two key elements – the Natural Heritage and Open Space System and Employment areas:</p> <ul style="list-style-type: none"> a) Natural Heritage and Open Space System <p>A central feature of the North West Area is the natural heritage and open space system. These lands are part of a larger system that extends into the North Oakville East Secondary Plan Area.</p> <ul style="list-style-type: none"> b) Employment Areas <p>Employment areas in the North West Area are lands designated to accommodate the development of predominantly employment</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
		<p>generating uses, including a wide range of industrial and office uses. Limited retail and service commercial uses designed to serve the businesses and employees shall also be found within the employment areas.</p>
<p>8.3.3 NATURAL HERITAGE AND OPEN SPACE SYSTEM</p> <p>The Natural Heritage and Open Space System for North Oakville West is part of a larger system which is intended to extend through all of North Oakville. It forms a central feature of the North Oakville West Planning Area. It is comprised of two components, a Natural Heritage component and an Open Space component.</p> <p>The Natural Heritage component of the System is comprised of the following key areas as identified by the policies in the Plan:</p> <p>i) Core Preserve Areas</p> <p>The Core Preserve Areas include key natural features or groupings of key natural features, together with required buffers and adjacent lands intended to protect the function of those features and ensure the long term sustainability of the Natural Heritage component of the System within the urban context.</p> <p>ii) Linkage Preserve Areas</p> <p>Linkage Preserve Areas include areas which</p>	<p>Revise and relocate to LOP new Section 10, Sustainability.</p> <p>References to the North Oakville Creeks Subwatershed Study found throughout the NOWSP are replaced with the more generic reference “applicable subwatershed study”</p>	<p>Natural Heritage System North of Dundas Street</p> <p>The Natural Heritage System shall be implemented in accordance with the overall concept and objectives of the applicable subwatershed study.</p> <p>Schedule B2 identifies the following Key Areas within the Natural Heritage System north of Dundas Street:</p> <p>a) Core Preserve Areas that include key natural features and areas, required buffers and adjacent lands intended to protect the function of natural features and to ensure the long term sustainability of the Natural Heritage System</p> <p>b) Linkage Preserve Areas that include areas which are designed to link the Core Preserve Areas together to maintain and enhance their environmental sustainability. They follow natural features whenever possible and are intended to be of sufficient size and character, including buffers, to ensure the functionality and sustainability of the Natural Heritage System</p> <p>c) Glenorchy Conservation Area includes an area which the Province of Ontario has</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>are designed to link the Core Preserve Areas together to maintain and enhance their environmental sustainability. They follow natural features whenever possible and are intended to be of sufficient size and character, including buffers, to ensure the functionality and sustainability of the Natural Heritage component of the System.</p> <p>iii) Glenorchy Conservation Area</p> <p>The Glenorchy Conservation Area includes an area which the Province of Ontario has identified for restoration and enhancement and which will be managed by Conservation Halton. This area provides a link between the 16 Mile Creek and the Core Preserve Area to the west of the Creek.</p> <p>iv) High Constraint Stream Corridor Areas</p> <p>High Constraint Stream Corridor Areas include certain watercourses and adjacent riparian lands, including buffers measured from the stable top-of-bank or meander belts. These areas are located primarily inside Core and Linkage Preserve Areas, but are also found outside such areas. They must be protected in their existing locations for hydrological and ecological reasons.</p> <p>v) Medium Constraint Stream Corridor Areas</p> <p>Medium Constraint Stream Corridor Areas include certain watercourses and adjacent riparian lands, including buffers measured from the stable top-of-bank or meander belts.</p>		<p>identified for restoration and enhancement and which will be managed by Conservation Halton. This area provides a link between the 16 Mile Creek and the Core Preserve Area to the west of the Creek</p> <p>d) High Constraint Stream Corridor Areas that include certain watercourses and adjacent riparian lands, including buffers measured from the stable top-of-bank or meander belts. These areas are located primarily inside Core and Linkage Preserve Areas, but are also found outside such areas</p> <p>e) Medium Constraint Stream Corridor Areas that include certain watercourses and adjacent riparian lands, including buffers measured from the stable top-of-bank or meander belts. These areas are located primarily inside Core and Linkage Preserve Areas, but are also found outside such areas</p> <p>f) Other Hydrological Features including Hydrologic Features A and B and watercourses, with associated riparian lands, and setbacks from top-of-bank and meander belts, located outside the Core and Linkage Preserve Areas and the High and Medium Constraint Stream Corridor Areas.</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>These areas are located primarily inside Core and Linkage Preserve Areas, but are also found outside such areas. They must be protected for hydrological and ecological reasons. These watercourses may be deepened and/or relocated in accordance with subsection 8.4.7.1 e).</p> <p>vi) Other Hydrological Features</p> <p>In addition, to the High and Medium Constraint Stream Corridor Areas, a number of other hydrological features have been identified in North Oakville West. These features are also part of the Natural Heritage component of the Natural Heritage and Open Space System to the extent they are maintained after development occur</p> <p>b) The Open Space component of the Natural Heritage and Open Space System includes open space areas such as stormwater facilities, public parks and schools. The Open Space component of the System will be designed, where possible, to connect to, and enhance the Natural Heritage component of the System.</p>		
<p>8.3.4 EMPLOYMENT TARGETS</p> <p>Part C, Section 4 of the Official Plan establishes the Town’s general policies with respect to employment. The North Oakville West Secondary Plan has been designed to implement the direction of those policies, and in particular to:</p>	<p>Delete, redundant.</p> <p>Minimum employment density targets measured in jobs per hectare will be established for the North West Area in coordination with Halton Region.</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>a) achieve a balance both in type and quantity between local employment opportunities and the resident labour force;</p> <p>b) actively encourage a diversification of employment opportunities in Oakville; and,</p> <p>c) encourage the growth of industrial commercial assessment.</p> <p>The employment target for North Oakville West reflects these directions and the background studies undertaken for this Secondary Plan which have resulted in a refinement to the targets for North Oakville identified in the North Oakville Strategic Land Use Options Study. The target is approximately 250 net hectares of employment land and 10,000 jobs at capacity, which may not be achieved within the 2021 planning period. This reflects a target of an average of 55 employees per net hectare. In addition, it is anticipated that there will be approximately 200 population related employees for a total target of 10,200 jobs at capacity. The achievement of these targets on a yearly basis shall not be required, however, the Town will review the achievement of the targets every five years and will monitor on an annual basis. Further, the total employment target which will be achieved in North Oakville will reflect the employment target for North Oakville West, in combination with the employment target for North Oakville East established in the North Oakville East Secondary Plan.</p>		

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>8.4 SUSTAINABLE DEVELOPMENT STRATEGY</p> <p>8.4.1 PURPOSE</p> <p>In keeping with the objectives of this Secondary Plan, the Town of Oakville is committed to the principle of sustainable development in the development of North Oakville West, together with North Oakville East.</p> <p>The Sustainable Development Strategy provides policies with respect to the implementation of this principle as it relates to development form, and specifically to the protection, conservation and enhancement of air, water and ecological features and functions, energy and other resources, and heritage resources.</p>	<p>Delete, redundant, operational, out of date</p> <p>Addressed in LOP Section 10, Sustainability</p>	<p>No change to LOP</p>
<p>8.4.2 DEVELOPMENT FORM</p> <p>The North Oakville West Secondary Plan has been based on a conceptual design which, when combined with North Oakville East, maximizes the potential for sustainable development through such features as a modified grid road system which enhances the opportunity to provide transit, and a Natural Heritage and Open Space System.</p> <p>In addition to the general direction implicit in the Plan, the Town will actively encourage development which is specifically based on the principle of sustainable development, including</p>	<p>Delete, redundant, operational</p> <p>Addressed in LOP Section 10, Sustainability</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>the development of Town facilities. The Town will also work with other public agencies to encourage them to follow these principles. Such development will be designed to:</p> <ul style="list-style-type: none"> a) reduce the consumption of energy, land and other non-renewable resources; b) minimize the waste of materials, water and other limited resources; c) create livable, healthy and productive environments; and, d) reduce greenhouse gases. 		
<p>8.4.3 AIR/ENERGY EFFICIENCY</p> <p>The Town recognizes that air quality in North Oakville West, together with North Oakville East, will be significantly influenced by air pollutant emissions from outside the area. However, the Town will work to improve air quality and energy efficiency in North Oakville West:</p> <p>by directing through the Secondary Plan policies, and their implementation, through the evaluation of development applications, and through the initiation of municipal programs and works, consideration of the following land use and transportation strategies to minimize the amount of vehicular travel and emissions:</p> <p>Concentrate activity centres such as commercial facilities, places of worship, recreation centres and schools;</p> <p>Encourage increased density near transit</p>	<p>Delete, redundant, operational</p> <p>Addressed in LOP Section 10, Sustainability</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>stops/stations and along transit routes commensurate with the type and frequency of transit service planned for that area and/or corridor;</p> <p>Provide pedestrian and bicycle facilities;</p> <p>Ensure an interconnected street network;</p> <p>Develop a strategy for the provision of public parking facilities at key locations; and,</p> <p>Provide convenient and efficient transit service.</p> <p>by directing where the Town has jurisdiction, including through its engineering standards, and encouraging where it does not, measures to reduce the “urban heat island effect” including installation of reflective (or high albedo) roofs, installation of green roofs, increasing the reflective nature of pavement and planting of shade trees; and,</p> <p>by encouraging at the development application stage, the reduction of energy and residential combustion emissions through a range of approaches including commercial construction standards such as LEED or other published standards, the incorporation of Energy Star appliances, the physical layout of the plan having regard to energy conservation, and buildings powered by renewable energy sources, both passive and active.</p>		

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>8.4.4 APPLICATION REVIEW</p> <p>The Town shall actively encourage development which reflects the principle of sustainable development through a North Oakville Sustainable Development Checklist. The checklist will be used as a tool for assessing sustainable development features of applications, including the matters set out in Section 8.4.4 b)i) and b)ii) or other initiatives. Development shall generally meet the minimum level outlined by the checklist</p> <p>The Sustainable Development Checklist will encourage developments that:</p> <ul style="list-style-type: none"> i) implement efficient and effective methods of providing energy through: <ul style="list-style-type: none"> 1) the incorporation of alternative energy options including the use of renewable energy resources and/or district energy systems; and/or, 2) minimizing energy needs and flat-lining the energy profile of the design of an area or a development. ii) increase energy efficiency and minimize environmental impacts in building design through approaches including or similar to some or all of the following: <ul style="list-style-type: none"> 1) utilizing commercial construction standards such as LEED or other published standards; 2) incorporating opportunities for efficiencies through orientation and the use of passive solar energy and landscaping options; 3) incorporating the potential for 	<p>Delete, redundant, operational</p> <p>Addressed in LOP Section 10, Sustainability</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>future alternative uses and life stages in building design;</p> <p>4) maximizing opportunities for waste reduction, reuse and recycling in the construction process, building design and community design;</p> <p>5) maximizing opportunities for stormwater and grey water reuse including the use of permeable materials for the surfaces of parking lots and internal driveways/roads;</p> <p>6) maximizing opportunities for application of stormwater management at the site level;</p> <p>7) incorporating water conservation measures in all buildings and landscaping; and,</p> <p>8) incorporating measures to reduce the “urban heat island effect” including installation of reflective (or high albedo) roofs, installation of green roofs, increasing the reflective nature of pavement and planting of shade trees.</p>		
<p>8.4.5 WATER MANAGEMENT</p> <p>The management of water resources within the North Oakville West Planning Area shall be undertaken in accordance with the directions established in the North Oakville Creeks Subwatershed Study. No amendments to the Secondary Plan shall be required to implement the recommendations of the Subwatershed Study or for changes to the number or location of stormwater management facilities in accordance with the policies of Section 8.6.2.2</p>	<p>Revise, insert into LOP new Section 27.7 Functional Policies, Stormwater Management</p>	<p>i) An Environmental Implementation Report (EIR) shall be prepared for each subcatchment area identified on Appendix 5, North West Subcatchment Areas, to the satisfaction of the Town.</p> <p>ii) Water resource management shall be undertaken in accordance with the overall concept and objectives of the applicable subwatershed study.</p> <p>iii) Changes to the number or location of</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>a) of this Plan.</p> <p>It is an objective of the Town that there be no net increase in phosphorus loadings as a result of development. It is recognized that this objective is achieved by requiring stormwater management ponds in North Oakville West to meet the MOE's Enhanced (Level 1) Guidelines. Provided the MOE's Enhanced (Level 1) Guidelines are met, there is no requirement to further analyze the total phosphorus during development approval.</p> <p>Further, prior to draft approval of plans of subdivision, Environmental Implementation Reports will be required for each subcatchment area (See Appendix 8.2) in which they are located, in accordance with the policies in Section 8.8.3 a). The Environmental Implementation Reports, in concert with the North Oakville Creeks Subwatershed Study, fulfill the EIS requirements of the Region of Halton Official Plan.</p>		<p>stormwater management facilities in accordance with the applicable subwatershed study may be permitted without amendment to this Plan.</p> <p>iv) Stormwater management facility sites and development standards shall be consistent with the policies of this Plan and in accordance with the applicable subwatershed study and any approved Environmental Implementation Report and Functional Servicing Study.</p>
<p>8.4.6 NATURAL HERITAGE AND OPEN SPACE SYSTEM</p> <p>8.4.6.1 Context</p> <p>In accordance with objectives of this Secondary Plan, a Natural Heritage and Open Space System is to be established for North Oakville West. The Natural Heritage and Open Space System for North Oakville West is part of a larger system which is intended to extend through all of North Oakville. It forms a</p>	<p>Delete, redundant</p> <p>Addressed in LOP new Section 27.7</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>central feature of the North Oakville West Planning Area. It is comprised of two components, a Natural Heritage component, and an Open Space component.</p>		
<p>8.4.6.2 Purpose</p> <p>The purpose of the Natural Heritage and Open Space System is the establishment of a system, the majority of which is to be in public ownership, and the focal point of which is a linked natural heritage system enhanced by a range of open space facilities. The System is designed to protect the natural environment, provide a balance between active and passive recreational needs and contribute to overall quality of life in North Oakville and the Town as a whole.</p> <p>The primary purpose of the Natural Heritage component of the Natural Heritage and Open Space System is to protect, preserve and, where appropriate, enhance the natural environment. The focus of the Natural Heritage component is on the protection of the key ecological features and functions of North Oakville. It will also contribute to the enhancement of air and water resources, and provide for limited, passive recreational needs.</p> <p>The primary purpose of the Open Space component of the System is to provide for active recreational needs and community facilities. It also should be designed, where possible, to connect to, and enhance the Natural Heritage component of the Natural</p>	<p>Delete, redundant</p> <p>Addressed in LOP new Section 27.7</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>Heritage and Open Space System, as well as providing for passive recreational needs. Finally, the Open Space component of the System provides facilities which will assist in building social relationships within the North Oakville community</p>		
<p>8.4.6.3 Subwatershed Study</p> <p>The policies of this Secondary Plan provide the framework for the Natural Heritage component of the System, however, the North Oakville Creeks Subwatershed Study provides the basis for its establishment and technical guidance for its implementation.</p>	<p>Delete, redundant, addressed in LOP new Section 27.7 Land Use Policies, Natural Heritage System</p>	<p>No change to LOP</p>
<p>8.4.7 NATURAL HERITAGE COMPONENT OF THE NATURAL HERITAGE AND OPEN SPACE SYSTEM</p>	<p>Delete, redundant</p> <p>Addressed in LOP new Section 27.7</p>	<p>No change to LOP</p>
<p>8.4.7.1 Natural Heritage Designations</p> <p>The Natural Heritage component of the Natural Heritage and Open Space System, reflecting an alternative Greenlands System as intended by the Regional Plan, is comprised of lands designated “Natural Heritage System Area” on Figures NOW1, NOW2 and NOW4 and “Core Preserve Area”, “Linkage Preserve Area”, “Glenorchy Conservation Area”, “High Constraint Stream Corridor Area” and “Medium Constraint Stream Corridor Area” on Figure NOW3. It also includes watercourses and features designated as “Other Hydrological Features” on Figure NOW3, to the extent that</p>	<p>Delete, redundant</p> <p>Addressed in LOP new Section 27.7</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
they are maintained after development occurs, in accordance with the policies in Section 8.4.8.		
<p>The Natural Heritage System Area designation is comprised of the following key areas:</p> <p>a) Core Preserve Areas</p> <p>i) The Core Preserve Area designation on Figure NOW3 includes key natural features or groupings of key natural features, together with required buffers and adjacent lands intended to protect the function of those features and ensure the long term sustainability of the Natural Heritage component of the System within the urban context.</p> <p>ii) The Core Preserve Areas were designated based on an evaluation which considered the following criteria: Diversity – Areas with diverse habitats and/or supporting a rich assemblage of species; Size – Sufficient size to protect interior habitat; Contiguity – Designed to create contiguous units; Connectivity – The unit can be linked to other units; Significance – Areas supporting significant species or habitats; Representativeness – Areas which include appropriate representational features associated with areas of natural and scientific interest (ANSI) designations or a candidate ANSI designation, including the Trafalgar</p>	<p>Delete, redundant</p> <p>Addressed in LOP new Section 27.7</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>Moraine candidate ANSI; and, Overall watershed functionality including hydrologic processes which protect the flow regime of receiving streams</p>		
<p>b) Linkage Preserve Areas</p> <p>The Linkage Preserve Area designation on Figure NOW3 includes areas which are designed to link the Core Preserve Areas together to maintain and enhance their environmental sustainability. They follow natural features whenever possible and are intended to be of sufficient size and character to ensure the functionality and sustainability of the Natural Heritage component of the System.</p> <p>ii) The length, width and general location of the Linkage Preserve Areas have been defined based on factors established through the North Oakville Creeks Subwatershed Study including: Composition of potential linkage feature; Character of the surrounding habitats; Presence and size of discontinuities; and, Required buffers.</p>	<p>Delete, redundant</p> <p>Addressed in LOP new Section 27.7</p>	<p>No change to LOP</p>
<p>c) Glenorchy Conservation Area</p> <p>The Glenorchy Conservation Area designation on Figure NOW3 includes an area which the Province of Ontario has identified for restoration and enhancement. This area, which will be managed by Conservation Halton, provides a link between the 16 Mile</p>	<p>Delete, redundant</p> <p>Addressed in LOP new Section 27.7</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
Creek and the Core Preserve Area to the west of the Creek.		
<p>d) High Constraint Stream Corridor Areas</p> <p>High Constraint Stream Corridor Areas as designated on Figure NOW3 include certain watercourses with associated riparian lands, including buffers measured from stable top-of-bank and meander belts. These areas are located primarily inside Core and Linkage Preserve Areas, but are also found outside such areas. They must be protected in their existing locations for hydrological and ecological reasons in accordance with the directions established in the North Oakville Creeks Subwatershed Study.</p>	<p>Delete, redundant</p> <p>Addressed in LOP new Section 27.7</p>	<p>No change to LOP</p>
<p>e) Medium Constraint Stream Corridor Areas</p> <p>Medium Constraint Stream Corridor Areas, as designated on Figure NOW3, include certain watercourses and adjacent riparian lands, including buffers measured from the stable top-of-bank or meander belts. These areas are located primarily inside Core and Linkage Preserve Areas, but are also found outside such areas. They must be protected for hydrological and ecological reasons. These watercourses may be deepened and/or relocated and consolidated with other watercourses provided that the watercourse feature, as well as the function of the watercourse, is maintained in accordance with the directions established in the North Oakville</p>	<p>Delete first 1/2, redundant</p> <p>Addressed in LOP new Section 27.7 Land Use Policies</p> <p>Add the Medium Constraint relocate/widening policy to LOP new Section 27.7 Land Use Policies, Natural Heritage System</p>	<p>Relocated or deepened channels in Medium Constraint Stream Corridor Areas identified on Schedule B2, in accordance with the policies of this Plan</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>Creeks Subwatershed Study and Federal, Provincial and Conservation Authority regulations, and natural channel design is used. Where a Medium Constraint Stream Corridor Area is relocated, the land use designation of the abutting lands on Figure NOW2, not the Natural Heritage System Area designation, shall apply to the lands from which the stream is moved.</p>		
<p>8.4.7.2 Boundaries</p> <p>The boundaries of the Core and Linkage Preserve Area, Glenorchy Conservation Area, and High Constraint Stream Corridor Area designations shall be maintained generally in accordance with the designations on Figure NOW3 and the North Oakville Creeks Subwatershed Study.</p> <p>As part of the detailed planning process, minor modifications to the boundaries of these designations may be considered to reflect differences in scale and levels of detail, or to better integrate natural and urban land uses to achieve a more compact, efficient urban form. However, such minor modifications will not negatively impact the Natural Heritage component of the Natural Heritage and Open Space System as determined by the Town, in consultation with the Region of Halton and Conservation Halton, nor shall such minor modifications result in any significant decrease in the size of the Natural Heritage component of the System.</p>	<p>Revise and insert into LOP new Section 10. <p>vi) Grading in the Natural Heritage component of the Natural Heritage and Open Space System for facilities outside of, but adjacent to, the Natural Heritage component of the System, such as lots, roads and public facilities, shall be permitted in accordance with the directions established in the North Oakville Creeks Subwatershed Study or appropriate Environmental Assessment.</p>	<p>Revise, delete operational, insert into LOP new Section 27.7 Land Use Policies</p>	
<p>vii) A corridor shall be identified and may traverse the Core and Linkage Preserve Areas, the Glenorchy Conservation Area and High or Medium Constraint Stream Corridor Areas to facilitate the construction of a trunk sanitary sewer from the Burnhamthorpe Road/Highway 407 area to Third Line/Dundas Street in accordance with the Halton Water and Wastewater Master Plan Review (KMK, 2002). The location of the corridor shall be refined through a Municipal Class Environmental Assessment process by Halton Region in consultation with Conservation Halton and other stakeholders and facilitates the construction of a sewer which does not exceed Halton Region's standard for depth of sewer and is at such grade which meets the existing trunk sewer at Third Line and Dundas Street and maintains the capacity requirements identified in the Region of Halton's Water and Wastewater Master Plan.</p>	<p>Delete, redundant, road is constructed</p>	<p>No change to LOP</p>
<p>8.4.8 OTHER HYDROLOGICAL FEATURES</p>	<p>Revise, insert into LOP new</p>	<p>In addition to the High and Medium Constraint</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>– NATURAL HERITAGE COMPONENT OF THE NATURAL HERITAGE AND OPEN SPACE SYSTEM</p> <p>In addition to the High and Medium Constraint Stream Corridor Areas of the Natural Heritage component of the Natural Heritage and Open Space System, as designated on Figure NOW3, a number of other hydrological features have been identified in North Oakville West. These features are also part of the Natural Heritage component of the Natural Heritage and Open Space System to the extent they are maintained after development occurs. They are subject to specific policy direction as follows:</p> <p>a) The other hydrological features identified on Figure NOW3 include Hydrologic Features “A” and “B” and watercourses, with associated riparian lands, and setbacks from top-of-bank and meander belts, located outside the Core and Linkage Preserve Areas and the High and Medium Constraint Stream Corridor Areas.</p> <p>b) These features require protection for hydrological reasons, and their protection will also have ecological benefits. The features shall be managed in accordance with directions established in the North Oakville Creeks Subwatershed Study. In particular:</p> <p>Where watercourses are designated as “Low Constraint Stream Corridor Area” on Figure NOW3, the streams do not need to be maintained, but the function of the watercourse</p>	<p>Section10. Sustainability</p>	<p>Stream Corridor Areas of the Natural Heritage System identified in Schedule B2, other hydrological features have also been identified and are shown on Schedule B2. These features are also part of the Natural Heritage System to the extent they are maintained after development occurs. They are subject to the following:</p> <p>a) The other hydrological features identified on Figure NOW3 include Hydrologic Features A and B and watercourses, with associated riparian lands, and setbacks from top-of-bank and meander belts, located outside the Core and Linkage Preserve Areas and the High and Medium Constraint Stream Corridor Areas.</p> <p>b) These features require protection for hydrological reasons, and their protection will also have ecological benefits. The features shall be managed in accordance with directions established in the applicable subwatershed study. In particular:</p> <p>i) Where watercourses are designated as Low Constraint Stream Corridor Area on Schedule B2, the streams do not need to be maintained, but the function of the watercourse must be maintained in accordance with the directions established in the applicable subwatershed study;</p> <p>ii) Other watercourses do not need to be maintained, although stream density targets established in the applicable</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>must be maintained in accordance with the directions established in the North Oakville Creeks Subwatershed Study and Federal, Provincial and Conservation Authority regulations;</p> <p>Other watercourses do not need to be maintained, although stream density targets as established by the North Oakville Creeks Subwatershed Study must be met;</p> <p>“Hydrologic Features “A” as designated on Figure NOW3 form part of High Constraint and Medium Constraint Stream Corridor Areas and serve a key hydrological purpose. If a Medium Constraint Stream Corridor Area in which a Hydrologic Feature “A” is located is to be moved or rehabilitated, it is intended that the Hydrologic Feature “A” will be reconstructed in the relocated or rehabilitated stream corridor such that the form and function of the Hydrologic Feature “A” is retained or enhanced. The reconstruction of the Hydrologic Feature “A” shall be carefully considered through a detailed hydrological and hydrogeological assessment as part of the Environmental Implementation Report. This assessment will also include an evaluation of any ecological benefits of the Feature;</p> <p>iv) “Hydrologic Features “B” may be relocated and consolidated with other wet features, wetlands or stormwater management ponds, provided the hydrologic function of the feature is maintained.</p> <p>c) Permitted uses shall be in accordance</p>		<p>subwatershed study must be met;</p> <p>iii) Hydrologic Features A as designated on Schedule B2 form part of High Constraint and Medium Constraint Stream Corridor Areas and serve a key hydrological purpose. If a Medium Constraint Stream Corridor Area in which a Hydrologic Feature A is located is to be moved or rehabilitated, it is intended that the Hydrologic Feature A will be reconstructed in the relocated or rehabilitated stream corridor such that the form and function of the Hydrologic Feature A is retained or enhanced. The reconstruction of the Hydrologic Feature A shall be carefully considered through a detailed hydrological and hydrogeological assessment as part of the Environmental Implementation Report. This assessment will also include an evaluation of any ecological benefits of the Feature; and,</p> <p>iv) Hydrologic Features B may be relocated and consolidated with other wet features, wetlands or stormwater management ponds, provided the hydrologic function of the feature is maintained.</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
with the policies of Section 8.4.7.3.		
<p>8.4.9 OPEN SPACE FACILITIES – OPEN SPACE COMPONENT OF THE NATURAL HERITAGE AND OPEN SPACE SYSTEM</p> <p>In addition to the Natural Heritage component of the Natural Heritage and Open Space System, additional open space areas such as public parks and stormwater management facilities currently exist or shall be established. These shall form the Open Space component of the Natural Heritage and Open Space System</p> <p>:</p> <p>a) Stormwater Management Facilities</p> <p>Stormwater management facilities located outside of the Natural Heritage and Open Space System shall be developed in accordance with the policies of Section 8.6.2.2 a) of this Plan.</p> <p>b) Public Parks</p> <p>Public parks shall be developed in accordance with the policies of this Plan in Sections 8.6.6 and 8.7.4.</p>	<p>Delete, redundant, addressed in LOP new Section 27.7 Land Use, Permitted Uses and Functional Policies</p>	<p>No change to LOP</p>
<p>8.4.10 NATURAL HERITAGE AND OPEN SPACE SYSTEM SECUREMENT</p> <p>a) The following designations on Figure NOW3 comprise the Natural Heritage component of the Natural Heritage and Open Space System. These designations do not</p>	<p>Delete, redundant</p> <p>Addressed in LOP Part F, Implementation and Interpretation, as well superseded by the Planning Act.</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>imply that the lands shall be purchased by the Town or a public agency or that they are free or open to the public:</p> <ul style="list-style-type: none"> i) Core Preserve Area; ii) Linkage Preserve Area; iii) High Constraint Stream Corridor Area; <p>and,</p> <ul style="list-style-type: none"> iv) Medium Constraint Stream Corridor. <p>This policy is also applicable to the Other Hydrological Features designated on Figure NOW3 which are also part of the Natural Heritage component of the System.</p> <p>The public portions of the Open Space component of the Natural Heritage and Open Space System shall generally be acquired in accordance with the provisions of the Planning Act and Section 8.7.4.5 of this Plan with respect to parkland acquisition.</p> <p>b) Notwithstanding the foregoing, the Town recognizes that public securement of the lands in the Natural Heritage component of the Natural Heritage and Open Space System shall provide opportunities for enhanced management of the lands in the System. The Town shall investigate all options for the securement of lands in the Natural Heritage component of the Natural Heritage and Open Space System</p> <p>c) Lands in the Natural Heritage component of the Natural Heritage and Open Space System, while recognized as part of the parkland hierarchy, shall not be acceptable as</p>		

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>parkland dedication under the Planning Act unless:</p> <p>i) the lands can be used without impact on environmental quality or function for some passive open space/recreational use such as a trail use or interpretative display in conjunction with adjacent active parkland which is located outside the Natural Heritage component of the Natural Heritage and Open Space System; and,</p> <p>ii) the Town is satisfied that sufficient land has been dedicated, or cash-in-lieu has been provided, to satisfy the Town’s requirements for active parkland for the development.</p>		
<p>8.4.11 RELATIONSHIP OF NATURAL HERITAGE AND OPEN SPACE SYSTEM TO REGIONAL GREENLANDS DESIGNATIONS</p> <p>The policies and designations of Sections 8.4.6, 8.4.7, 8.4.8, 8.4.9 and 8.4.10 of this Plan are the policies and designations applicable to the lands in the Natural Heritage and Open Space System. However, for the purposes of the Regional Plan, the lands designated “Natural Heritage System Area” shall be regarded as being part of the Greenlands B designation of the Regional Plan, with the exception of the following lands which shall be regarded as being part of the Greenlands A designation of the Regional Plan:</p> <p>i) lands included in the Regulatory Flood Plains;</p>	Delete, redundant	No change to LOP

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>ii) any lands which may be designated as Provincially Significant Wetlands as determined by the Ministry of Natural Resources, and refined from time to time; and,</p> <p>iii) significant portions of the habitat of endangered and threatened species, as determined by the Ministry of Natural Resources, and refined from time to time.</p> <p>In addition, any lands defined as Regulatory Flood Plain, as defined by the Regional Official Plan, outside of the Natural Heritage component of the Natural Heritage and Open Space System, shall be regarded as being part of the Greenlands A designation of the Regional Plan.</p>		
<p>8.4.12 NATURAL HERITAGE COMPONENT MANAGEMENT</p> <p>The Natural Heritage component of the Natural Heritage and Open Space System shall generally be managed in accordance with the directions established in the North Oakville Creeks Subwatershed Study Implementation Report.</p>	Delete, redundant	No change to LOP
<p>8.4.13 FLOOD CONTROL</p> <p>8.4.13.1 Floodplains</p> <p>Notwithstanding the designations and policies of this Secondary Plan, development in floodplain areas shall generally be governed</p>	Delete, redundant Addressed in LOP Section 10, Sustainability	No change to LOP

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>by the policies of Part D, Section 4.3.2.2 b) and c) of the Official Plan. However, where specific direction is provided by the North Oakville Creeks Subwatershed Study, that Study shall be the governing document. This study includes a figure which shows the current extent of floodplains in North Oakville. In addition, any development in floodplain areas is subject to the approval of Conservation Halton under Ontario Regulation 162/06, as amended or replaced. Further, the floodplain limits shall be established, in accordance with Environmental Implementation Reports or other studies carried out in accordance with the North Oakville Creeks Subwatershed Study and approved by Conservation Halton. Such studies shall be prepared according to terms of reference approved by the Town of Oakville and Conservation Halton, at the cost of the applicant.</p>		
<p>8.4.13.2 Peak Stormwater Flow Control</p> <p>The North Oakville Creeks Subwatershed Study recommends that stormwater targets include control of the peak flow to predevelopment levels for various return periods, including the Regional Storm. Through the land development application process, an investigation of the potential increase to flood risk may be carried out to confirm if Regional Storm controls are necessary, in accordance with the directions established in the North Oakville Creeks Subwatershed Study.</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 10, Sustainability</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>8.4.14 CULTURAL HERITAGE RESOURCES</p> <p>The protection of cultural heritage resources is governed by the requirements of the Ontario Heritage Act, as amended. The following policies, in conjunction with the requirements of the Ontario Heritage Act, provide the framework for the protection of cultural heritage resources in North Oakville West.</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 5. Cultural Heritage</p>	<p>No change to LOP</p>
<p>8.4.14.1 Designation of Cultural Heritage Resources</p> <p>a) The Ontario Heritage Act permits the Town to prohibit the demolition or removal of property designated under the Act or to attach terms and conditions to the approval of demolition, subject to an appeal to the Ontario Municipal Board. Absent a heritage easement agreement, the designation of a property provides the maximum degree of protection to the cultural heritage resource.</p> <p>b) In addition to properties which are already designated (See Appendix 8.1), the Town may consider the designation of additional properties and heritage conservation districts pursuant to the provisions of the Ontario Heritage Act subject to an assessment based on the criteria prescribed by Provincial regulation. Properties which may be considered for designation are listed in the Town's register of heritage properties.</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 5 Cultural Heritage</p>	<p>No change to LOP</p>

<p>h) A proposed plan of subdivision or other development plan shall be considered to be inconsistent with the Master Plan, as referenced in subsection c) i), if it does not</p>	<p>Revise, insert in to LOP new Section 27.7. Implementation</p>	<p>d) Plans of subdivision or other planning applications shall be considered inconsistent with Schedule K if they do not conform to the General Design Directions of this Special</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>conform to the General Design Directions in Section 8.5.4, or results in coordination issues between areas identified in subsection b. The following shall generally not be considered to be inconsistent with the Master Plan, provided that the Town determines that the plan of subdivision or other development plan conforms with the policies and Figures of the Secondary Plan:</p> <ul style="list-style-type: none"> i) modifications to, or relocations of portions of the road pattern; ii) modifications to Medium or Low Constraint Stream Corridors or Hydrologic Features “A” and “B”; or, iii) relocation of public facilities including parks and stormwater ponds. 		<p>Policy Area, or results in coordination issues between one or more of the sub-areas identified</p> <ul style="list-style-type: none"> e) The following shall generally not be considered inconsistent with Schedule K: <ul style="list-style-type: none"> i) modifications or relocations of portions of the road pattern; ii) modifications to Medium or Low Constraint Stream Corridors or Hydrologic Features “A” and “B”; or, iii) relocation of public facilities including parks and stormwater ponds.
<ul style="list-style-type: none"> i) The approval of an area design plan by the Town shall not require an amendment to this Plan. 	<p>Revise, insert in to LOP new Section 27.7. Implementation</p>	<p>The approval of an area design plan by the Town shall not require an amendment to this Plan.</p>
<p>8.5.3 DESIGN GUIDELINES</p> <p>Urban Design and Open Space Guidelines, which shall include guidelines with respect to matters set out in Section 8.5 as well as heritage resources, shall be prepared by the Town as part of the North Oakville West Implementation Strategy prior to the approval of any development applications. All development applications shall be evaluated by the Town to ensure that they are consistent with the Urban Design and Open Space Guidelines.</p>	<p>Delete, redundant, operational</p> <p>Addressed in new LOP new Section 27.7 Implementation</p> <p>Guidelines have been developed and are in use.</p>	<p>No change to LOP</p>
<p>8.5.4 GENERAL DESIGN DIRECTIONS</p>	<p>Delete, redundant</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>a) All development shall be designed to be compact, pedestrian and transit friendly in form. Mixed use development shall be encouraged, recognizing that residential development is prohibited, and commercial development limited, within the Employment Districts.</p>	<p>Addressed in LOP: Section 6. Urban Design Section 8. Transportation Section 14. Employment</p>	
<p>b) A hierarchy of civic, institutional and commercial uses shall be established in locations/activity centres which form part of mixed use areas (rather than isolated in single-use complexes), recognizing that residential development is prohibited, and commercial development limited, within the Employment Districts, which allow them to serve as focal points for the Planning Area as a whole.</p>	<p>Delete, redundant</p> <p>Addressed in new Palermo Village and Hospital District policies</p>	<p>No change to LOP</p>
<p>c) Development shall be based on a modified grid road system with interconnected networks of roads designed to disperse and reduce the length of vehicular trips and support the early integration and sustained viability of transit service. For local roads not shown on Figure NOW4, the modified grid road system shall respond to topography and the Natural Heritage System component of the Natural Heritage and Open Space System. Cul-de-sacs shall generally be permitted only when warranted by natural site conditions</p>	<p>Delete, redundant</p> <p>Addressed in LOP: Section 6. Urban Design Section 8. Transportation Section 14. Employment</p>	<p>No change to LOP</p>
<p>d) The Natural Heritage component of the Natural Heritage and Open Space System forms a central feature of the Planning Area and the development form should reflect this</p>	<p>Revise, insert into LOP new Section 27.7, Functional Policies</p> <p>Add Major Trail System to LOP</p>	<p>A comprehensive, interconnected system of trails shall be developed which shall generally reflect the Major Trail System on Schedule D.</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>fact. In addition, an associated comprehensive, interconnected system of trails shall be developed which shall generally reflect the major trail system on Figure NOW4.</p>	<p>Schedule D</p>	
<p>e) Public safety, views and accessibility, both physically and visually, to the Natural Heritage component of the Natural Heritage and Open Space System, as well as to parks and other natural and civic features, shall be important consideration in community design. This shall be accomplished through a range of different approaches including, but not limited to, the use of single loaded roads, crescent roads, combining public open space with other public or institutional facilities (e.g. easements, stormwater ponds adjacent to the Natural Heritage component of the System) and the location of high density employment buildings. With respect to the Natural Heritage component of the Natural Heritage and Open Space System, priority shall be given to maintaining views and accessibility at key trail access points where Arterial, and Avenue roads are adjacent to the System. Where there is no significant Natural Heritage edge exposed at Arterial or Avenue roads, parks or local roads shall be encouraged to provide access and visibility.</p> <p>With respect to other public facilities particularly parks, of the total linear perimeter distance around such uses in the order of 50% of the perimeter shall be bounded by a combination of roads and open space which shall allow public access or, at a minimum</p>	<p>Revise, insert into LOP new Section 27.7, Functional Policies</p> <p>Add Major Trail System to LOP Schedule D</p>	<p>ii) Community design shall consider public safety, views and accessibility, both physically and visually, to the Natural Heritage component of the Natural Heritage and Open Space System, and to parks and other natural and civic features. This shall be implemented through a range of approaches including:</p> <ul style="list-style-type: none"> • single loaded roads; • crescent roads; • combining public open space with other public or institutional facilities such as easements or stormwater ponds adjacent to the Natural Heritage component of the System; and, • the location of high density employment buildings. <p>iii) Priority shall be given to maintaining views and accessibility at key trail access points where Arterial, and Avenue roads are adjacent to the System.</p> <p>iv) Where there is no significant Natural Heritage edge exposed at Arterial or Avenue roads, parks or local roads shall be encouraged to provide access and visibility.</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>private open space which shall allow significant views of the feature or facility. Where only road frontage is provided the frontage shall be in the order of 40% of the perimeter of the features and facilities.</p>		<p>v) With respect to other public facilities particularly parks, of the total linear perimeter distance around such uses in the order of 50% of the perimeter shall be bounded by a combination of roads and open space which shall allow public access or, at a minimum private open space which shall allow significant views of the feature or facility.</p> <p>vi) Where only road frontage is provided the frontage shall be in the order of 40% of the perimeter of the features and facilities.</p>
<p>f) Parks and other civic areas shall serve as central “meeting places” for employees and residents of the Town.</p>	Delete, operational	No change to LOP
<p>g) Building densities and land uses designed to support the use of transit and the level of transit service proposed for specific areas shall be located within walking distances of transit stops and lines.</p>	Delete, redundant Addressed in LOP: Section 4, Growth Management Section 8. Transportation	No change to LOP
<p>h) The incorporation of cultural heritage resources into the community, including their use and adaptive reuse, shall be encouraged.</p>	Delete, redundant Addressed in LOP Section 5. Cultural Heritage	No change to LOP
<p>8.5.5 STREETSCAPE</p> <p>The streetscape consists of streets and public frontages. The streets provide the traffic and parking capacity. The public frontages provide for pedestrian circulation and contribute to the character of the streetscape. The design of</p>	Delete, redundant Addressed in LOP Section 6. Urban Design and Section 8. Transportation	No change to LOP

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>the streetscape is defined by the type of sidewalk, curbing, planters and street trees. The policies of Section 8.7.2 of this Plan provide detailed direction with respect to the design of typical streets, while the Urban Design and Open Space Guidelines shall address directions for public frontages and other design treatments.</p> <p>The Urban Design and Open Space Guidelines shall establish three types of streets with respect to typical design treatment. Variations may be considered by the Town based on circumstances such as topography, proposed abutting land use, relationship to the Natural Heritage and Open Space System and achievement of other design objectives:</p>		
<p>8.5.5.1 Arterial/Transit Corridors</p> <p>Arterial/Transit Corridors as designated on Figure NOW4 are high capacity roads which serve as major gateways into the community, including both the Town as a whole, and North Oakville West. A balance must be achieved between their transportation function, including accommodation for transit, and their ability to provide access to flanking land uses, and to act as socially vibrant public space. To assist in achieving this balance, these streets shall have the highest form of design treatment, including wide sidewalks, special tree and feature planting, paving, lighting and signage design.</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 6. Urban Design and Section 8. Transportation</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>8.5.5.2 Avenue /Transit Corridors</p> <p>Avenue/Transit Corridors as designated on Figure NOW4 connect employment areas and neighbourhoods together and to other major focal points of the community. These roads shall have a higher level of design than the Local Streets through the extended use of tree and feature planting, paving, lighting and signage design. The design shall complement the planned abutting land uses.</p>	<p>Revise, insert in to LOP new Section 8, Transportation</p>	<p>a) Avenue/Transit Corridors and Connector/Transit Corridors as designated on Schedule C, Transportation Plan, connect neighbourhoods together and to Urban Core Areas and other major focal points of the broader community.</p> <p>b) These roads shall have a high level of design through the use of tree and feature planting, paving, lighting and signage design. The design shall complement the planned abutting land uses.</p>
<p>8.5.5.3 Local Streets</p> <p>Local streets play a dual role as socialization spaces, as well as supporting transportation needs. The design requirements, while less substantial than for Avenue roads, must support the dual role of the local streets.</p>	<p>Revise, insert in to LOP new Section 8, Transportation</p>	<p>a) Local roads provide vibrant spaces and support the transportation system. The design requirements for local roads, while less substantial than for Avenue/Transit Corridors, must support this dual function.</p> <p>b) Window roads may be permitted in limited circumstances</p>
<p>8.5.5.4 Lanes/Hybrid Roads/Service Roads</p> <p>a) General Where direct driveway access from a roadway is inappropriate or in response to special design features such as a development fronting directly onto open space, lanes, hybrid roads, and service roads shall be utilized, and in limited circumstances, “window” roads. The design requirements for these roads shall establish certain minimum standards to address issues like pavement width and relationship to parking areas. Where such roads are to be public roads, they shall be</p>	<p>Revise, insert in to LOP new Section 8, Transportation</p>	<p>a) Lanes, hybrid roads, and service roads shall be permitted where direct driveway access from a roadway is inappropriate or in response to special design features such as a development fronting directly onto open space.</p> <p>b) Lanes, hybrid roads, and service roads shall be designed with minimum standards for pavement width related to parking areas.</p> <p>c) The design requirements for these roads shall establish certain minimum standards to address issues like pavement width and the</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>designed:</p> <p>to provide access for public maintenance vehicles, including snow plows and garbage trucks, as well as emergency vehicles, where deemed necessary by the Town; to maximize safety and security; as much as possible for hybrid roads to minimize the impact of garage doors; and, to provide along lanes, where feasible, a varied streetscape.</p> <p>b) Lanes</p> <p>Where the Town’s policies for urban design are such that the use of lanes is required, the lanes may be in public ownership if requested by the development proponent, otherwise lanes would generally be in private ownership. Further, if public ownership of lanes is proposed, there should be a sufficient number of public lanes in the same vicinity to minimize maintenance costs.</p>		<p>relationship to parking areas.</p> <p>d) Lanes, hybrid roads, and service roads in public ownership shall be designed:</p> <p>i) to provide access for public maintenance vehicles, including snow plows and garbage trucks, as well as emergency vehicles, where deemed necessary by the Town;</p> <p>ii) to maximize safety and security;</p> <p>iii) as much as possible for hybrid roads to minimize the impact of garage doors; and,</p> <p>iv) to provide along lanes, where feasible, a varied streetscape.</p>
<p>8.5.5.5 Pedestrian/Cyclist Orientation</p> <p>Pedestrian/cyclist comfort and safety shall be considered in the streetscape design for roads under the control of the Town of Oakville. In mixed use areas, recognizing that residential development is prohibited, and commercial development limited, within the Employment Districts, the design shall provide for an enhanced streetscape and sidewalk environment for pedestrians. The Town shall also work with the Region to encourage a</p>	<p>Delete, redundant</p> <p>Addressed in: Section 6. Urban Design Section 8. Transportation Section 14. Employment</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
similar approach.		
<p>8.5.5.6 Reverse Lotting</p> <p>Reverse lotting shall be permitted where the Town is satisfied that there is no other alternative due to topographic or other site constraints. A range of alternatives such as lanes, service roads, “window” roads, and hybrid roads shall be used to ensure a high quality of streetscape design. If there is no alternative to reverse lotting, landscaping as well as site and building design shall be used to mitigate the impact on the streetscape.</p>	<p>Delete, redundant</p> <p>Addressed in LOP: Section 6. Urban Design</p>	<p>No change to LOP</p>
<p>8.5.5.7 Noise Sensitive Properties</p> <p>Noise sensitive properties shall be buffered through mechanisms such as restrictions on the type of use, building design, location of outdoor living area and through the provision of landscaping including street trees. Buffering such as noise fences, berms and rear lotting, with the exceptions in Section 8.5.5.6, which restrict visual and physical access to the street, shall be prohibited.</p>	<p>Revise, insert in to LOP new Section 27.7 Functional Policies, Sensitive Land Uses</p>	<p>Buffering sensitive land uses with noise fences, berms and rear lotting shall be prohibited.</p>
<p>8.5.5.8 Sidewalks</p> <p>Sidewalks shall generally be provided on both sides of all streets with the exception of:</p> <ul style="list-style-type: none"> i) lanes, where no sidewalks shall be required; and, ii) a road flanking the Natural Heritage and Open Space System, where a sidewalk shall 	<p>Delete, redundant</p> <p>Addressed in LOP Section 8. Transportation</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
be provided on the developed side only, subject to the availability of a trail facility on the other side of the street.		
<p>8.5.5.9 Cyclists</p> <p>Provision for cyclists to travel either on the roadway or on bicycle paths separated from the roadway, which may or may not include a designated lane, shall be recognized in the design of all streets. In addition, bicycle parking standards shall be prepared and implemented through the zoning by-law.</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 8. Transportation</p>	<p>No change to LOP</p>
<p>8.5.5.10 Bicycle/Pedestrian Trail System</p> <p>An extensive system of recreational trails shall be developed related to the Natural Heritage and Open Space System as well as along certain public road rights of way. A conceptual major trail system which shall form a basis for the development of this more extensive system is identified on Figure NOW4. However, any proposed trail development within the Natural Heritage and Open Space System shall be subject to further study as part of the Implementation Strategy to the satisfaction of the Town, in consultation with the Region of Halton and Conservation Halton. The system may be refined through the preparation of an Environmental Implementation Report in accordance with the provisions of 8.8.3 a) of this Plan.</p>	<p>Revise, insert in to LOP new Section 27.7 Functional Policies, Active Transportation</p>	<p>An extensive system of recreational trails shall be developed related to the Natural Heritage and Open Space System as well as along certain public road rights of way. A major trail system which shall form the basis for the development of this more extensive system is identified on Schedule D.</p> <p>Trail development within the Natural Heritage and Parks and Open Space Systems shall be subject to the Parks, Recreation, Culture and Library Master Plan, the North Oakville Trails Plan and related programs.</p>
<p>8.5.5.11 Lighting</p> <p>Lighting shall provide suitable illumination for</p>	<p>Delete, redundant</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
vehicles, pedestrians and cyclists.	Addressed in LOP Section 6. Urban Design	
<p>8.5.5.12 Street Furniture</p> <p>Street furniture such as lighting, signage, parking meters, cycle parking facilities, newspaper boxes, utilities, and garbage facilities shall be designed and placed within a consistent and integrated system of form, pattern, shape, colour, and texture to avoid clutter and facilitate readability. Utilities shall be grouped or clustered wherever possible.</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 6. Urban Design</p>	No change to LOP
<p>8.5.5.13 Block Size</p> <p>The length of the block makes a significant difference in creating a pedestrian-friendly environment. Blocks should be short and regular in length to make walking efficient and allow for variation in routes. Where it is impossible or undesirable to provide short blocks, wide public mid-block pathways should be provided to shorten walking distances.</p>	<p>Revise, insert in to LOP new Section 27.7 Functional Policies, Urban Design</p>	<p>Blocks should be short and regular in length to improve walkability and allow for variation in routes.</p> <p>Public mid-block pedestrian connections should be provided where short blocks are not possible.</p>
<p>8.5.6 BUILDING LOCATION</p> <p>a) Buildings, structures and landscaping shall be designed to provide visual interest to pedestrians, as well as a “sense of enclosure” to the street. Generally, heights of buildings shall also be related to road widths to create a more comfortable pedestrian environment, so that the wider the road width, the higher the building height.</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 6. Urban Design</p>	No change to LOP

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>b) Buildings on corner lots at the intersections of Arterials and Avenues shall be sited and massed toward the intersection.</p> <p>c) The rear and side building elevations of all buildings on corner lots shall be designed to take advantage of their extra visibility.</p>		
<p>8.5.7 PARKING AREAS</p> <p>8.5.7.1 Off-Street Parking</p> <p>Off-street parking areas shall be designed to reduce their visual impact on both the adjoining streetscape and on people using the facility by:</p> <p>a) Screening of the parking lot at the street through the use of features such as low fences, walls and landscaping and in a manner which reflects the safe community design policies of Section 8.5.10;</p> <p>b) Locating the parking lot, within commercial or mixed use developments, recognizing that residential development is prohibited, and commercial development limited, within the Employment Districts, to the side or rear of the main building and permitting no or only minimal parking in front of the main building.</p> <p>c) The use of landscaping or decorative paving to reduce the visual expanse of large parking areas;</p>	<p>Delete, redundant, addressed in LOP Section 6. Urban Design and Section 8. Transportation</p> <p>Revise and insert “joint access” provision to LOP new Section 27.7 Functional Policies, Urban Design</p>	<p>Off-street parking facilities should be designed to share joint access with adjoining properties where feasible</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>d) Joint access to parking lots on adjoining properties where feasible; and,</p> <p>e) Provision of pedestrian walkways adjacent to buildings, between building clusters, and to provide pedestrian access to transit stops, public sidewalks and other developments. These walkways may need to cross parking lots to provide the required access.</p>		
<p>8.5.7.2 Parking Options</p> <p>In addition, options to replace at-grade parking areas shall be encouraged including:</p> <p>a) On-street parking</p> <p>On-street parking should be permitted wherever possible to increase animation, reduce vehicle speeds and serve as a protective buffer between pedestrians and moving vehicles. To encourage the provision of such parking, appropriate engineering design standards for roadways, including laybys, shall be developed and reduced off-street parking requirements shall be established for specific areas where appropriate, particularly along transit routes.</p> <p>b) Municipal parking</p> <p>The Town shall work with landowners in mixed use and employment areas to establish municipal parking at strategic nodes.</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 8. Transportation</p>	<p>No change to LOP</p>

<p>Subwatershed Study. In addition, notwithstanding the other policies of this section, stormwater management facilities may be permitted in the Linkage Preserve Area, High Constraint Stream Area and Medium Constraint Stream Area designations in conformity with the policies of Section 8.4.7.3 c) of this Plan.</p> <p>b) Educational Facilities, including public and private schools, day care and day nursery uses subject to the policies of Part D, Section 5.2 a), i) through vi) and viii) of the Official Plan and the regulations of the Zoning By-law, provided that such uses shall not be permitted in the Employment Area designation unless they are related to or supportive of an employment use;</p> <p>c) Home occupations in any legally established residential unit, subject to the regulations of the Zoning By-law;</p> <p>d) Group homes in accordance with the policies of Part D, Section 5.2 d), i), and iii) of the Official Plan and subject to the regulations of the zoning by-law;</p> <p>e) Public uses including transit terminals, works yards, parks, pumping stations, reservoirs, ambulance, fire and police and any other emergency service facilities or stations, libraries and recreational facilities provided that the uses are maintained by a public authority and are designed and constructed to enhance compatibility with adjacent uses;</p>		<p>ii) educational facilities, day care centres except in employment areas;</p> <p>iii) home occupations in any legally established residential unit, subject to the regulations of the Zoning By-law;</p> <p>iv) public services facilities;</p> <p>v) temporary sale pavilion</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>f) One accessory apartment in a single detached, semi-detached or duplex dwelling in accordance with the regulations of the zoning by-law;</p> <p>g) Renewable energy facilities and district energy systems, provided that wind turbines shall be subject to an amendment to the zoning by-law and shall require submission of studies which address the mitigation of visual and other impacts on adjacent land uses;</p> <p>h) Adaptive reuse of designated or listed heritage buildings or structures that cannot continue to fulfill their existing role provided that the reuse is designed and constructed to enhance compatibility with adjacent uses;</p> <p>i) Emergency housing in accordance with the criteria established by the Emergency Housing Advisory Group; and,</p> <p>j) Temporary structures for the assembly of housing units being constructed in North Oakville subject to the provisions of a temporary use by-law adopted in accordance with the provisions of the Planning Act for renewable periods of not more than three years, provided that such a use does not adversely affect any existing surrounding uses or the development of adjacent lands, and adequate provision is made for parking and loading and adequate services such as water and waste water and roads are available.</p>		
8.6.3 NATURAL HERITAGE SYSTEM AREA	Delete, redundant, addressed in	No change to LOP

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>a) Purpose</p> <p>The Natural Heritage System Area designation on Figure NOW2 reflects the Natural Heritage component of the Natural Heritage and Open Space System. The primary purpose of the Natural Heritage component of the System is to protect, preserve and, where appropriate, enhance the natural environment. The focus of the Natural Heritage component is on the protection of the key ecological features and functions of North Oakville. It shall also contribute to the enhancement of air and water resources, and provide for limited, passive recreational needs.</p>	<p>LOP new Section 27.7 Land Use Policies</p>	
<p>b) Permitted Uses, Buildings and Structures</p> <p>The uses, buildings and structures permitted in the Natural Heritage System Area shall be in accordance with the policies of Section 8.4.7.3.</p>	<p>Delete, redundant, addressed in LOP new Section 27.7 Land Use Policies</p>	<p>No change to LOP</p>
<p>c) Land Use Policies</p> <p>The policies for the lands in the Natural Heritage System Area designation shall be in accordance with the policies of Section 8.4.7.</p>	<p>Delete, redundant, addressed in LOP new Section 27.7 Land Use Policies</p>	<p>No change to LOP</p>
<p>8.6.4 SPECIAL STUDY AREA</p> <p>The Special Study Area designation reflects an area which is intended to develop as a mixed use area that is pedestrian and transit</p>	<p>Delete, addressed in Palermo Village provisions</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>oriented. The area is subject to a special study to address its cultural heritage features and how these features can be integrated with the proposed new development. New development shall be limited to expansions of existing uses until this Plan is amended to incorporate detailed policy direction for lands in the Special Study Area.</p>		
<p>8.6.5 EMPLOYMENT DISTRICT</p> <p>8.6.5.1 Purpose</p> <p>The primary focus of the Employment District designation on Figure NOW2 is to protect for, and establish a range of development opportunities for employment generating industrial, office and service employment uses. It shall also include a Health Oriented Mixed Use Node on the north side of Dundas St. at Third Line. Where applicable, the range and scale of uses are to be designed to be sensitive to the adjacency and compatibility with development in the Health Oriented Mixed Use Node, or to reflect a visible location on and exposure to highway corridors and major roads.</p>	<p>Delete, redundant.</p> <p>Addressed in LOP new Section 27.7 Objectives</p> <p>“Compatible” provision in proximity to Hospital District maintained.</p>	<p>No change to LOP</p>
<p>8.6.5.2 Permitted Uses, Buildings and Structures</p> <p>Permitted uses may include:</p> <p>a) light industrial operations, including light manufacturing, assembling, processing, fabricating, repairing, warehousing, distribution</p>	<p>Delete, redundant, the first section of this provision is addressed in LOP Section 14. Employment, Business Employment</p> <p>Second section of the provision is revised and maintained in LOP new Section 27.7 Land Use</p>	<p>a) The following uses may be permitted on lands not abutting the Hospital District, Major Arterials or Highway 407:</p> <p>i) general industrial operations within enclosed buildings including manufacturing, assembling, processing, fabricating, repairing, warehousing,</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>and wholesaling;</p> <p>b) business and professional office uses and medical clinics;</p> <p>c) service establishments such as print shops, equipment rental establishments, restaurants, hotels, banquet halls, financial institutions, and service establishments which primarily provide services at the customer's location such as electricians and plumbers and limited retail commercial development such as business supply and industrial supply establishments subject to the requirements of Section 8.6.5.3 and 8.6.5.4d);</p> <p>d) public uses, institutional uses including places of worship, vocational schools;</p> <p>e) sport and recreation, and place of amusement uses;</p> <p>f) automobile related uses, including gas stations; and,</p> <p>g) ancillary retail sales of products produced, assembled and/or repaired on the premises,</p> <p>h) as part of a distribution use, the ancillary retail sale of the products distributed from an ancillary showroom;</p> <p>i) research and development;</p> <p>j) information processing, call centres and similar uses; and,</p>	<p>Policies, Business Employment</p>	<p>distribution, and wholesaling</p> <p>b) Motor vehicle related uses may also be permitted on lands designated Business Employment</p> <p>c) Permitted service commercial uses shall be located at the intersections of Arterials and Avenues</p> <p>d) Building Heights</p> <p>i) Buildings within the Business Employment designation in the North West Area shall be a minimum of two storeys in height and a maximum of 15 storeys, except buildings fronting onto Dundas Street, which shall be a minimum of four storeys.</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>k) computer based services including design studios.</p> <p>In addition, the Health Oriented Mixed Use Node shall include a hospital and may also include research and development facilities, medical and other offices, laboratories, clinics, supportive housing, long term care facilities, rehabilitation facilities, and other similar uses including retail and service commercial facilities related to the permitted uses.</p> <p>The following uses shall be permitted in areas which do not abut the Health Oriented Mixed Use Node, major arterial roads or Highway 407:</p> <ul style="list-style-type: none"> i) general industrial operations within enclosed buildings including manufacturing, assembling, processing, fabricating, repairing, warehousing, distribution, and wholesaling; ii) outside storage, and outside operations incidental to industrial operations; iii) transportation terminal, works yard and outside storage yard; iv) waste processing station subject to a zoning by-law amendment, and, v) waste transfer station, subject to a zoning by-law amendment. 		
<p>8.6.5.3 Retail and Service Commercial Uses</p> <p>Limited retail and service commercial uses permitted in Section 8.6.5.2 shall be clustered at the intersections with Arterials and Avenues.</p>	<p>Revise and insert locational criterion for service commercial into LOP new Section 27.7 Land Use Policies</p>	<p>Permitted service commercial uses shall be located at the intersections of Arterials and Avenues.</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>In addition, service establishments which primarily provide services at the customer’s location may be located throughout the Employment Area designation, subject to the provisions of the zoning by-law, provided that if they include open storage, they shall be restricted to areas which do not abut, the Health Oriented Mixed Use Node, major arterial roads or Highway 407.</p> <p>The zoning by-law shall establish specific limitations on the area which can be used for the ancillary retail sales permitted by sub-sections 8.6.5.2 g) and h) to ensure that the retail sales use is clearly accessory to the primary production, assembly, repair and/or distribution use.</p>	<p>Ancillary retail uses are permitted more broadly.</p> <p>Delete, remaining, redundant</p>	
<p>8.6.5.4 Land Use Policies</p> <p>a) It is not intended that the full range of employment uses shall be permitted in all locations designated “Employment District”. The precise range of uses and density of development shall be stipulated in the zoning by-law. In particular, the lands in the Employment Area designation abutting the Health Oriented Mixed Use Node shall be subject to a site specific zoning regulations including the use of a holding zone, and any proposed use shall be carefully evaluated to ensure that it does not adversely impact on the uses in the Health Oriented Mixed Use Node.</p> <p>b) All development shall be subject to the</p>	<p>Delete, redundant, operational, addressed in LOP Section 14. Business Employment</p> <p>HOMUN addressed in Hospital District provisions</p> <p>c) shall be addressed in restricted uses in Business Employment</p> <p>Insert revised policy into LOP new Section 27.7 Land Use Policies, Business Employment</p>	<p>Service establishments shall be located in clusters at intersections with Arterials and Avenues.</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>site plan control provisions of the Planning Act and shall comply with all Federal and Provincial regulations.</p> <p>c) Where lands in the Employment District designation are located adjacent to the Health Oriented Mixed Use Node, matters such as the location of loading bays and other sources of light, noise and fumes shall be reviewed to ensure that any impact on the residential or health related uses complies with Provincial guidelines and regulations.</p> <p>These matters shall be addressed by:</p> <p>the Town at a general level as a basis for the development of regulations in the zoning by-law and the Urban Design and Open Space Guidelines; and, the applicant in detail through the site plan approval process.</p> <p>d) Development shall conform to the following additional criteria:</p> <p>Main buildings shall be designed and located to assist in the creation of an attractive street edge, to provide for a strong pedestrian connection to the sidewalk, and to recognize any potential future intensification of the site: The balance between the areas of the lot occupied by buildings and the service and parking areas shall be designed, wherever feasible, to reduce the extent of the street frontage occupied by service and parking areas. Where street frontage is occupied by parking and service areas, enhanced</p>		

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>landscaping shall be provided; Maximum height -15 storeys; Minimum Floor Space Index –0.25 for retail and service commercial uses; and regard shall be had for the provisions of Subsection e) below with respect to all other uses; Maximum Floor Space Index – 3 and; Service establishments shall be located in clusters at intersections with Arterials and Avenues.</p> <p>e) While there is no minimum density for employment uses, a density of 0.35 FSI shall be a general objective. To this end, the draft plan, zoning by-law and site plan approval processes where applicable, shall consider measures such as minimum setbacks, innovative stormwater controls, siting arrangements, parking reductions and other possible measures to encourage a maximization of intensity of development.</p>		
<p>8.6.5.5 Existing Employment Uses</p> <p>Notwithstanding any other policies of this Plan:</p> <p>i) An existing single industrial use shall be permitted to locate on the north side of Dundas Street, approximately 670 metres west of Old Bronte Road.</p> <p>ii) An existing second employment use consisting of an office with associated manufacturing and warehousing shall be permitted on a 10.3 hectare parcel of land</p>	<p>Revise, insert into LOP new Section 28. Exceptions</p> <p>Delete exceptions that are constructed and permitted.</p>	

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>approximately 800 metres west of Old Bronte Road and approximately 700 metres north of Dundas Street with a driveway access only to Dundas Street.</p>		
<p>8.6.5.6 Transportation Terminal</p> <p>Notwithstanding the policies of this Plan, a transportation/transit terminal, road works yard and outdoor storage shall be permitted within the land designated “Employment District” as shown on Figure NOW2 located on the south side of Highway 407, east of Regional Road 25. However, outdoor storage shall be located and/or screened so that it is generally not directly visible from Highway 407 or any future access road. The appropriate level of buffering and screening from Highway 407 or any future private access road shall be determined in consultation with the Town</p> <p>The private access road to the subject employment lands is conceptually shown on Appendix 8.3 (Master Plan). The private access road shall be defined through an Environmental Assessment process in consultation with the Town, the Region of Halton and Conservation Halton, and where the access crosses the Natural Heritage component of the Natural Heritage and Open Space System it shall reflect the relevant directions in Section 8.4.7.3 c) ii) of this Plan and the North Oakville Creeks Subwatershed Study.</p>	<p>Revise, insert into LOP new Section 28. Exceptions</p> <p>Delete exceptions that are constructed and permitted.</p>	<p>The following additional policies apply to certain lands on Schedule K, North West Land Use</p> <p>On the lands designated Business Employment on the south side of Highway 407, east of Regional Road 25:</p> <ul style="list-style-type: none"> a) a transportation/transit terminal and road works yard shall be permitted; and, b) outdoor storage may be permitted provided it is located or screened from visibility from Highway 407 and a future access road to the site, to the satisfaction of the Town.
<p>8.6.6 COMMUNITY PARK AREA</p>	<p>Revise and insert into LOP new</p>	<p>a) The function of each park is defined through</p>

<p>8.7.2.2 Transit</p> <p>a) The Town shall work with the Region of Halton and the Province of Ontario to develop a system of transit services for the Planning Area. The transit system shall provide a range of options for transit service for the residents and employees. In particular:</p> <p>i) The Town shall support a “transit first” policy to ensure that development shall proceed in a manner which shall be supportive of the early provision of transit services.</p> <p>ii) Transit stops shall be located so that all</p>	<p>Delete, redundant, operational, out of date/completed</p> <p>Addressed in Section 8. Transportation and 6. Urban Design</p>	No change to LOP

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>residents and employees are predominantly within 400 metre walking distance of a transit stop;</p> <p>iii) Transit terminals shall be developed at the interchange of Highway 407 and Regional Road 25 and south of Dundas St. in the Palermo Village Centre Community. These terminals shall provide for transfers from local transit routes and for connections from local to regional and inter-regional transit services. The terminal location shall be determined in the context of the detailed design of development for these general locations; and,</p> <p>iv) The Town shall encourage the Province to proceed with the Environmental Assessment and detailed design of the 407 Transitway and the related terminals at the Regional Road 25, Neyagawa Blvd. and Trafalgar Road interchanges and in such studies explore opportunities to minimize the width of the corridor in order to maximize development lands. The terminals should be designed to provide for connections between inter-regional, regional and local transit service. In addition, they should be designed to provide for mixed use development, recognizing that residential development is prohibited, and commercial development limited, within the Employment Districts, which is integrated with surrounding existing and/or proposed uses.</p>		
<p>b) As a basis for the development of the system of transit services, the Town shall</p>	<p>Revise and insert into LOP Section 8. Transportation</p>	<p>The transit service concept identified on Schedule C for the lands north of Dundas Street</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>prepare a Transit Plan, which identifies the network and frequency of transit in North Oakville.</p> <p>Further, as a condition of approval of any plan of subdivision, a transit facilities plan must be developed by the applicant, in conjunction with the Town, and approved by the Town, which addresses transit facilities in the plan of subdivision and how they shall be integrated with existing and/or proposed transit network and connected to major intermodal terminals as identified in the Town’s Transit Plan. In particular, the transit facilities plan shall show and describe the location of transit facilities including stops and shelters and transit signal priority facilities. It shall also address how the development addresses the policies of Section 8.7.2.2 a ii) and c).</p> <p>The Transit Service concept on Figure NOW4, which illustrates a hierarchy of primary, secondary and community level transit service, shall be used as a basis for the development of the Transit Plan and the individual transit facilities plans.</p>		<p>shall be used as a basis for the development of the Transit Plan and individual transit facility plans.</p>
<p>c) Development plans shall be designed with specific regard to the safe, convenient and efficient provision of public transit. In particular, to facilitate the development of a transit supportive urban structure the following measures shall be reflected in all development proposals:</p> <p>i) Development, particularly at transit</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 8. Transportation and Section 6. Urban Design</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>stops and stations, shall be designed at densities supportive of transit which are commensurate with the type and frequency of transit service planned for the area and/or corridor;</p> <p>ii) Provision of a road pattern and related pedestrian routes that provide for direct pedestrian access to transit routes and stops;</p> <p>iii) Documentation of walking distances to ensure that all areas within the Planning Area are adequately served by transit;</p> <p>iv) Provision for transit stops and busbays on Arterials and Avenues; and where appropriate incorporation of these features into road design requirements.</p> <p>v) The relevant provisions of Section 8.5; and,</p> <p>vi) The policies and objectives of the Halton Transportation Master Plan.</p>		
<p>d) Applicants within the retail and service commercial nodes in the Employment District shall be encouraged to explore opportunities to incorporate transit waiting areas into buildings located adjacent to transit stops.</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 8. Transportation and 6. Urban Design</p>	<p>No change to LOP</p>
<p>8.7.2.3 Travel Demand Management</p> <p>a) The Town recognizes the role of Travel Demand Management in promoting more efficient use of transportation infrastructure, making the use of private vehicles more sustainable and encouraging increased transit use. The Town shall encourage businesses and/or organizations to prepare and administer special transportation demand management</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 8. Transportation and 6. Urban Design</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>strategies which promote more efficient use of existing road facilities including staggered work hours, car pooling and High Occupancy Vehicle (HOV) lanes and other similar approaches.</p> <p>b) The Town shall encourage any development which contains more than 3,000 square metres of office use or 9,290 square metres of industrial use to establish with the Town a travel demand management plan and implementation strategy for the specific development. Priority shall be given to measures which are not capital intensive (e.g. flexible working hours, priority parking for car pool vehicles) and which are feasible given the scale, ultimate occupant/user and location of the development.</p> <p>c) As an incentive to encourage travel demand management as set out in Subsection a) and b), the Town shall permit reduced parking standards for developments which demonstrate through a travel demand management plan and implementation strategy that a reduction in parking standards is appropriate. A reduction in parking standards shall also be considered where mixed use development is permitted, where there is significant density of development and good accessibility to transit.</p>		
<p>8.7.2.4 Pedestrian/Bicycle System</p> <p>The Pedestrian / Bicycle System shall be developed in accordance with the provisions of</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 8. Transportation and 6. Urban</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
Section 8.5.5 of this Secondary Plan.	Design	
<p>a) Pedestrian/Cyclist Orientation</p> <p>Pedestrian/cyclist comfort and safety shall be a primary consideration of streetscape design for roads under the control of the Town of Oakville. In commercial and mixed use areas, the design shall provide for an enhanced streetscape and sidewalk environment for pedestrians. The Town shall also work with the Region to encourage a similar approach.</p> <p>b) Sidewalks</p> <p>Sidewalks shall generally be provided on both sides of all streets with the exception of:</p> <p>i) lanes, where no sidewalks shall be required; and,</p> <p>ii) a road flanking the Natural Heritage and Open Space System, where sidewalks shall be provided on the developed side only, subject to the availability of a trail facility on the other side of the street.</p> <p>c) Cyclists</p> <p>Provision for cyclists to travel either on the roadway or on bicycle paths separated from the roadway, which may or may not include a designated lane, shall be recognized in the design of all streets. In addition, bicycle parking standards shall be prepared and implemented through the zoning by-law.</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 8. Transportation and 6. Urban Design</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>d) Bicycle/Pedestrian System</p> <p>An extensive system of recreational trails shall be developed related to the Natural Heritage and Open Space System as well as along certain public road rights of way. A conceptual major trail system which shall form the basis for the development of this more extensive system is identified on Figure NOW4. However, any proposed trail development within the Natural Heritage and Open Space System shall be subject to further study as part of the Implementation Strategy to the satisfaction of the Town, in consultation with the Region of Halton and Conservation Halton. The system may be refined through the preparation of an Environmental Implementation Report in accordance with the provisions of Section 8.8.3 a) of this Plan.</p>		
<p>8.7.2.5 Roads</p> <p>a) Integrated Planning</p> <p>The Town shall work cooperatively with the Province, the Region of Halton and adjacent municipalities to integrate the planning of the municipal road network with the roads under Provincial and Regional jurisdiction and in the planning of roads with cross municipal boundaries.</p>	<p>Delete, redundant, operational</p> <p>Addressed in LOP Section 8. Transportation and 6. Urban Design</p>	<p>No change to LOP</p>
<p>b) Pedestrian-Oriented Environment</p> <p>The Town, when providing comments on the design of Regional roads and in designing its</p>	<p>Delete, redundant, operational</p> <p>Addressed in LOP Section 8. Transportation and 6. Urban</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>own roads, shall balance the provision of a safe, functional and attractive pedestrian oriented environment with an acceptable level of vehicular traffic. The Town is prepared to accept a level of service which is less than optimum, in return for a more pedestrian-oriented environment along its roads. To achieve this environment, the Town may be prepared to use a variety of techniques depending on the function of the road, including:</p> <ul style="list-style-type: none"> i) reduced lane width; ii) provision of landscaped centre medians; iii) provision of on-street parking, including laybys; iv) provision of transit priority measures; v) provision of regular intersections of local roads with Regional and other major roads to allow for the creation of a modified grid system; and, vi) use of alternative road geometrics and materials at pedestrian crossing areas. 	<p>Design</p>	
<p>c) Road Right-of-Ways</p> <p>The Town shall require as a condition of approval of any new development or redevelopment that sufficient lands be conveyed to the Town or the Region, as applicable, to provide the road right-of-way width established in Table 1. For alignment locations on existing roads, where not defined by an Environmental Assessment, the land shall generally be conveyed on either side of</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 8 Transportation</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
the centre line of the original road allowance.		
<p>d) Additional Requirements for Transportation Facilities</p> <p>In addition to securing the rights-of-way in accordance with the requirements of Table 1, the Town may require additional lands to provide for facilities such as bike lanes, medians and on-street parking. In addition, the Town may require additional lands at intersections to provide for exclusive turning lanes, daylight triangles and other special treatments including the construction of bridges, overpasses and depressed sections of roadways. Such additional right-of-way requirements shall be kept to the minimum and shall be determined at the time of the design of the road facilities and shall become part of the required right-of-way.</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 8 Transportation</p>	<p>No change to LOP</p>
<p>e) New North Oakville Transportation Corridor and Crossing of Sixteen Mile Creek</p> <p>The Region of Halton is carrying out an Environmental Assessment to determine the future alignment of a New North Oakville Transportation Corridor and Crossing of Sixteen Mile Creek in the Secondary Plan Area. The Town shall work with the Region of Halton, other agencies and the landowners in the North Oakville East and West Planning Areas through the Environmental Assessment process to determine the alignment of the new Corridor, including a location for a crossing of the Sixteen Mile Creek.</p>	<p>Delete, operational, out of date</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>The road alignment, including the crossing alignment, illustrated on the schedules to this Plan, is conceptual only and subject to the Environmental Assessment process. All alternatives identified through the Environmental Assessment process shall be investigated in more detail prior to determining the final road and crossing alignment. In the meantime, no development shall be permitted on the potential road alignments identified through the Environmental Assessment process.</p> <p>Notwithstanding the foregoing, the Town is committed to a solution which shall result in the creation of a New North Oakville Transportation Corridor and Crossing of Sixteen Mile Creek to serve as a Regional Road carrying through traffic, while the majority of the existing Burnhamthorpe Road right-of-way in North Oakville East is maintained to serve as a Character Road with an Avenue/Transit Corridor function.</p>		
<p>f) Additional Requirements for Transportation Facilities supporting the Health Oriented Mixed Use Node</p> <p>In addition to securing the rights-of-way in accordance with the requirements of Table 1, the Town may require additional lands to support the uses and functions related to the Health Oriented Mixed Use Node. Such additional rights-of-way requirements shall be determined at the time of the design of the</p>	<p>Delete, redundant, addressed in Hospital District provisions</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
road facilities and shall become part of the required right-of-way.		
<p>8.7.2.6 Trucking</p> <p>The movement of goods by truck is an essential element of the transportation system. The Town shall work with local businesses to ensure the provision of truck routes which meet their needs, while having regard for the need to protect residential neighbourhoods from the impact of truck traffic.</p>	Delete, operational	No change to LOP
<p>8.7.2.7 Parking</p> <p>a) The Town shall require as a condition of development or redevelopment that adequate parking and loading facilities be provided in commercial, employment, institutional developments, including parking for bicycles. Such parking may include on-street parking or the use of municipal parking facilities.</p>	Delete, redundant Addressed in LOP Section 6 Urban Design and Section 8. Transportation	No change to LOP
<p>b) In accordance with the provisions of Section 8.5.7, options to replace at-grade parking areas shall be encouraged including:</p> <p>i) On-street parking</p> <p>On-street parking should be permitted wherever possible to increase animation, reduce vehicle speeds and serve as a protective buffer between pedestrians and moving vehicles. To encourage the provision of such parking, appropriate engineering design standards for roadways, including</p>	Delete, redundant Addressed in LOP Section 6 Urban Design and Section 8. Transportation	No change to LOP

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>laybys, shall be developed and reduced off-street parking requirements shall be established for specific areas where appropriate, particularly along transit routes.</p> <p>ii) Municipal Parking</p> <p>The Town shall work with landowners to purchase or lease and establish municipal parking at strategic locations.</p> <p>iii) Maximum Parking Standards</p> <p>The zoning by-law may establish maximum, as well as minimum parking standards.</p>		
<p>c) The Town may, at its discretion, enter into an agreement with an owner or occupant of a building, in an area where a municipal parking garage or lots has or shall be established, to provide for the payment of cash-in-lieu of parking for all or part of the zoning by-law requirements for off-street parking.</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 6 Urban Design and Section 8. Transportation</p>	<p>No change to LOP</p>
<p>d) Parking lot design including municipal parking facilities shall be in accordance with the provisions of Section 8.5.7</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 6 Urban Design and Section 8. Transportation</p>	<p>No change to LOP</p>
<p>8.7.3 SERVICES AND UTILITIES</p>		
<p>8.7.3.1 Water and Wastewater Services</p> <p>a) All new urban development in the North Oakville West Planning Area shall be</p>	<p>Delete, operational, operational, out of date</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>connected to the municipal wastewater and water systems, with the exception, on an interim basis, of expansions to existing uses and limited new uses approved by the Town and Region through amendments to the Zoning By-law, which shall only be in accordance with Town and Regional policies.</p> <p>b) The Region of Halton shall be responsible for the financing and development of water treatment and distribution and wastewater collection and treatment. Prior to the approval of new urban development, with the exception, on an interim basis, of expansions to existing uses and limited new uses approved by the Town and the Region through amendments to the Zoning By-law, which shall only be in accordance with Town and Regional policies, the Region, shall, if necessary, update their Region of Halton Water and Wastewater Master Plan.</p> <p>c) Prior to the approval of new urban development, with the exception, on an interim basis, of expansions to existing uses and limited new uses approved by the Town through amendments to the Zoning By-law, which shall only be in accordance with Town and Regional policies, a Water and Wastewater Master Plan for the North Oakville West Planning Area shall be prepared to the satisfaction of the Region of Halton. The Water and Wastewater Master Plan shall be in accordance with the Region of Halton Design Criteria, Contract Specifications and Standard Drawings, as well as other Regional policies related to water and wastewater. The Water</p>		

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>and Wastewater Master Plan shall identify the technical requirements to provide the following services to support urban development:</p> <ul style="list-style-type: none"> i) Wastewater collection; and, ii) Water supply. <p>The following items shall be addressed as part of the Water and Wastewater Master Plan in terms of water servicing and wastewater servicing:</p> <ul style="list-style-type: none"> i) evaluation of the existing water and wastewater systems; and, ii) details with respect to the proposed water and wastewater systems. <p>The provision of servicing shall relate to the phasing of development as set out in Section 8.9 of this Plan and the North Oakville Master Servicing Plan and the Region of Halton Water and Wastewater Master Plan.</p> <p>d) Prior to the approval of new urban development in any phase, a financial plan shall be approved by Region of Halton Council.</p> <p>e) A corridor shall be identified and may traverse the Core and Linkage Preserve Areas, the Glenorchy Conservation Area and High or Medium Constraint Stream Corridor Areas to facilitate the construction of a trunk sanitary sewer from the Burnhamthorpe Road/Highway 407 area to Third Line/Dundas Street in accordance with the Halton Water and Wastewater Master Plan Review (KMK,</p>		

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>2002). The location of the corridor shall be refined through a Municipal Class Environmental Assessment process by Halton Region in consultation with Conservation Halton and other stakeholders and facilitates the construction of a sewer which does not exceed Halton Region's standard for depth of sewer and is at such grade which meets the existing trunk sewer at Third Line and Dundas Street and maintains the capacity requirements identified in the Region of Halton's Water and Wastewater Master Plan.</p> <p>The Region's and the Town's cost of providing services to facilitate the development of lands shall be borne by such development in accordance with all applicable legislation</p>		
<p>8.7.3.2 Utilities</p> <p>a) Utilities shall be permitted in any land use designation. The exception shall be Core and Linkage Preserve Areas, the Glenorchy Conservation Area and High or Medium Constraint Stream Corridor Areas, where new uses shall only be permitted within road allowances.</p> <p>b) Where new services are being introduced, they shall be located underground and shall be encouraged to locate in one initial common trench. Trunk hydro services may be located above ground, but shall be encouraged to be located underground.</p> <p>c) The Town shall encourage the provision of electronic communications technology</p>	<p>Delete, redundant, operational, operational</p> <p>Addressed in LOP new Section 27.7 Land Use Policies</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>involving high capacity fibre optics to enhance telecommunications services. However, all telecommunications facilities shall be designed and located to minimize their visual impact on residential and environmental areas.</p> <p>d) Prior to approval of development, all interested utilities are to confirm if services can be provided to support the proposed development, and shall determine appropriate locations for large utility equipment or utility cluster sites.</p>		
<p>8.7.4 PARKLAND HIERARCHY</p> <p>8.7.4.1 Purpose</p> <p>The Parkland Hierarchy is that established for North Oakville and does not reflect the hierarchy for the area of the Town south of Dundas Street. The Parkland Hierarchy includes facilities which are designed to provide the full range of active and passive recreation activities and include, in North Oakville West, the following lands:</p> <p>a) Community Parks; and, b) Urban Squares.</p> <p>The other components of the Parkland Hierarchy include Neighbourhood Parks and Village Squares which are found in North Oakville East.</p> <p>Specific policies for Community Parks, which are designated conceptually on Figure NOW2, are found in Section 8.6.6.</p>	<p>Delete, redundant, operational, addressed in LOP Section 17. Open Space and LOP new Section 27.7 Land Use Policies, Parks and Open Space</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>The locational criteria and general design parameters for Urban Squares shall be determined through the Parks Facilities Distribution Plan. However, generally Urban Squares shall:</p> <ul style="list-style-type: none"> a) consist of passive open space; b) be generally smaller in size than 0.3 hectares; and, c) may be in public or private ownership. <p>In addition, the following lands which provide opportunities for more passive recreation uses are also considered part of the parkland hierarchy:</p> <ul style="list-style-type: none"> a) Core Preserve Area; b) Linkage Preserve Area; c) Glenorchy Conservation Area; d) High and Medium Constraint Stream Corridor Areas; and, e) Other Hydrological Features. <p>Policies for these lands are found in Sections 8.4.6 to 8.4.12 of this Secondary Plan.</p>		
<p>8.7.4.2 Parks Facilities Distribution Plan</p> <p>In addition to the policies of this Secondary Plan, additional detailed direction with respect to the North Oakville West parkland hierarchy, including additional direction with respect to Urban Squares, shall be provided by the Parks Facilities Distribution Plan (PFDP). This Plan, which shall form part of the Implementation Strategy, shall outline the facilities proposed</p>	<p>Delete, redundant, operational, addressed in LOP Section 17. Open Space and LOP new Section 27.7 Land Use Policies, Parks and Open Space</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
for each active park together with their respective sizes.		
<p>8.7.4.3 Parkland Supply</p> <p>a) The Town shall endeavour to establish, throughout North Oakville, Neighbourhood Parks, Community Parks, Village Squares and Urban Squares on the basis of 2.2 hectares per 1000 persons. This parkland shall be in addition to the North Park lands in North Oakville East which are already in the ownership of the Town, and which serve not only the residents of North Oakville but all of the Town. This standard shall not be interpreted as rigid or inflexible.</p> <p>b) Lands required to meet this target, which are in excess of the lands dedicated through the parkland dedication provisions of Section 8.7.4.5, may be purchased or leased by the Town.</p>	Delete, operational, out of date	No change to LOP
<p>8.7.4.4 Park Management</p> <p>The Town shall manage parkland in an environmentally sensitive manner and, in particular shall:</p> <p>a) endeavour to use only native plants in naturalized areas;</p> <p>b) reduce, where appropriate, the amount of manicured areas and allow the naturalization of these areas; and,</p> <p>c) protect isolated natural features within designated park areas.</p>	Delete, operational	No change to LOP

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>8.7.4.5 Parkland Acquisition</p> <p>a) As a condition of development of land, the Town shall require the conveyance of land for parkland or other public recreational purposes based on the parkland conveyance provisions of the Planning Act, and specifically:</p> <p>i) in the case of land proposed for development or redevelopment for commercial or industrial purposes, 2 percent of the land proposed for development or redevelopment or within a plan of subdivision as the case may be; and,</p> <p>ii) 5 percent of the land in all other cases.</p>	<p>Delete, redundant, out of date</p> <p>Addressed in LOP Section 28. Implementation</p>	<p>No change to LOP</p>
<p>b) The Town may, at its discretion, request cash payment in lieu of land for park purposes to the value of the land otherwise required to be conveyed; such cash shall be placed in a park fund to be expended in accordance with the provisions of the Planning Act. Cash-in-lieu shall be calculated and paid at the time of issuance of building permits. The Town may also exchange lands, or accept lots-in-lieu. The proceeds may be applied to the needs of a coordinated parkland system.</p>	<p>Delete, redundant, out of date</p> <p>Addressed in LOP Section 28. Implementation</p>	<p>No change to LOP</p>
<p>c) The Town shall not accept as part of the parkland conveyance referred to in Subsection a), lands required for drainage purposes, stormwater management facilities, connecting walkways, lands susceptible to flooding, (except as set out in Section 8.4.13), steep valley slopes, hazard lands, wetlands, associated buffer areas including top-of-bank</p>	<p>Delete, redundant, out of date</p> <p>Addressed in LOP Section 28. Implementation</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
and meander belt setbacks, lands designated Core or Linkage Preserve Area or the Glenorchy Conservation Area or High Constraint Stream Corridor Area or Medium Constraint Stream Corridor Area or other lands unsuitable for development.		
d) All parkland conveyed to the Town shall be conveyed in a physical condition satisfactory to the Town and in accordance with the policies, practices and guidelines of the Town.	Delete, redundant, out of date Addressed in LOP new Section 27.7 Implementation	No change to LOP
8.7.5 COMMUNITY CENTRES AND OTHER INDOOR RECREATION AND CULTURAL FACILITIES a) In addition to parkland, the Town recognizes the need to establish a number of community centres to provide for indoor recreation and meeting facilities. The Town shall generally provide such multi-use facilities in association with libraries, and/or other municipal facilities and adjacent to parks and/or school facilities, where possible. The potential for an arts and cultural centre at one of these centres in North Oakville should also be investigated.	Delete, redundant Addressed in LOP new Section 27.7 Land Use Policies, Parks and Open Space	No change to LOP
b) The Town shall also actively attempt to expand the supply and maintenance of recreation and leisure facilities through partnerships with other groups and agencies, as well as through direct provision.	Delete, redundant Addressed in LOP new Section 27.7 Land Use Policies, Parks and Open Space	No change to LOP
c) Lands acquired by the Town for such	Delete, redundant	No change to LOP

<p>purposes shall be in accordance with the Town's policies, practices and guidelines.</p>	<p>Addressed in LOP new Section 27.7 Land Use Policies, Parks and Open Space</p>	
<p>8.7.6 LIBRARIES</p> <p>a) The Town has an active library system which shall be extended to North Oakville. Libraries shall be encouraged to locate in Urban Core Areas with other municipal, recreation and culture and community service facilities.</p> <p>b) Lands acquired by the Town for such purposes shall be in accordance with the Town's and Library's policies, practices and guidelines.</p>	<p>Delete, not applicable to the North West Area since there is no planned residential population.</p> <p>Addressed in Palermo Village provisions</p>	<p>No change to LOP</p>
<p>8.7.7 COMMUNITY FACILITIES</p> <p>a) Community facilities include facilities designed to meet the social and cultural needs of the residents including places of worship, day care centres, museums, cultural or arts centres or other similar uses. The Town shall work with such groups to ensure that provision is made for such facilities in appropriate locations to serve the residents' needs.</p> <p>b) In determining appropriate locations for community uses, the Town shall have regard to the type of service provided by the facility, recognizing that some use shall serve a localized population, while others shall serve the Planning Area or the Town as a whole.</p>	<p>Delete, not applicable to the North West Area since there is no planned residential population.</p> <p>Addressed in Palermo Village and Hospital District provisions</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>8.7.8 HEALTH SERVICE</p> <p>a) The Town shall work with the Halton Healthcare Services, the Mississauga-Halton Local Health Integration Network and appropriate government and service agencies and the community to assist in providing the maximum level of health service to the community.</p> <p>b) The Town shall encourage the development of a new hospital to serve all of Oakville in North Oakville. The hospital shall be located in a compact, transit supportive manner, which uses a minimal amount of land generally in the area identified on Figure NOW2 as “Health Oriented Mixed Use Node”. The use of a district energy system shall be encouraged.</p>	<p>Delete, out of date</p> <p>Addressed in Hospital District provisions</p>	<p>No change to LOP</p>
<p>8.7.9 FIRE AND EMERGENCY SERVICES</p> <p>a) The Town shall work to ensure the efficient and effective allocation of Fire and Ambulance Station sites and emergency services throughout the Planning Area, in consultation with the Town’s Fire Department, and Halton Regional Police Services.</p> <p>b) The Town shall consult with the Fire Department, Halton Regional Police Services and Halton Region Ambulance Services with respect to the location of Fire, Police and Ambulance stations and facilities and the design of the road system to ensure that</p>	<p>Delete, operational</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>response time is minimized. Such emergency stations and facilities shall have convenient access to major roads, a close relationship to the intended service area and shall be integrated with the surrounding development including appropriate architectural design and landscaping.</p> <p>c) Development proposals shall be reviewed to ensure that they are designed to accommodate access for emergency vehicles and other safety considerations.</p> <p>d) Lands acquired by the Town and/or Region for such purposes shall be in accordance with the respective policies, practices and guidelines of the Town and Region of Halton.</p>		
<p>8.8 DEVELOPMENT REVIEW</p> <p>8.8.1 PURPOSE</p> <p>All development applications in the North Oakville West Planning Area shall be subject to review in accordance with the policies of this section and the other applicable policies of this Secondary Plan. In addition, the Town may require development to be subject to the site plan control provisions of the Planning Act as set out in Section 8.10.6.</p>	<p>Delete, redundant, operational</p> <p>Addressed in LOP Section 28. Implementation</p>	<p>No change to LOP</p>
<p>8.8.2 GENERAL</p> <p>The policies of this section establish the background information requirements and the</p>	<p>Delete, redundant, operational</p> <p>Addressed in LOP Section 28. Implementation</p>	<p>No change to LOP</p>

<p>8.8.5 NEW CEMETERY USES</p> <p>A new cemetery is not a permitted use and shall require an official plan amendment. Any application for a cemetery shall be subject to the following requirements:</p> <p>a) The following information shall be submitted as a basis for the evaluation of an application for a new or expanded cemetery, in addition to the general requirements of Section 8.8, Development Review:</p> <p>All requirements under Provincial legislation; and,</p> <p>Soils and hydrological tests and reports to the satisfaction of the Town and the Region of Halton's Chief Medical Officer of Health.</p> <p>b) Regard shall be had to the following matters in considering a development application for a new or expanded cemetery:</p> <p>The need for the proposed use; The implications of the use of the land for a cemetery on the population and employment targets for North Oakville; The appropriateness and suitability of the proposed site; The impacts on adjacent land uses; and, The need for suitable setbacks, buffering and fencing.</p>	<p>Delete, operational, addressed under provincial legislation.</p>	<p>No change to LOP</p>
<p>8.9 GROWTH MANAGEMENT STRATEGY</p>	<p>Delete, operational</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>8.9.1 PURPOSE</p> <p>The Growth Management Strategy for new urban development is outlined in the following sections. It is designed to ensure that growth occurs in an orderly, well-planned manner.</p>		
<p>8.9.2 PHASING</p> <p>a) All policies under Section 8.9.2 of this Plan are subject to the capability of the Region of Halton to deliver the infrastructure to support development, including a Financial and Implementation Plan adopted by Regional Council. While the Region recognizes the flexibility to development phasing provided by Section 8.9.2 of the Plan, the provision of Regional infrastructure to support such flexibility can only be confirmed through detailed studies and analysis by the Region and amendments to the Regional Official Plan as necessary.</p>	<p>Delete, redundant, operational</p> <p>Addressed in LOP Section 9. Physical Services</p>	<p>No change to LOP</p>
<p>b) Rate of Growth</p> <p>It is the intent of this Plan to ensure that the rate of growth is controlled to ensure that:</p> <p>i) the development of employment districts shall be encouraged to occur concurrently with the development of nearby residential lands;</p> <p>ii) progression of development is contingent on the availability and efficient utilization of public infrastructure and services;</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 4. Managing Growth and Change and Section 9. Physical Services</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>iii) progression of development shall follow a logical sequence generally south to north; and,</p> <p>iv) development shall proceed in a manner which shall be supportive of the early provision of transit services.</p>		
<p>c) Unphased Development</p> <p>Development in Employment designations, including all development specifically based on the principle of sustainable development in conformity with Section 8.4.4 of this Plan, and the development of parkland, shall be permitted without reference to any phasing policies subject to the availability of suitable urban infrastructure such as water, wastewater collection and treatment facilities, fire and ambulance protection and transportation.</p>	<p>Revise, add to LOP new Section 27.7 Implementation</p>	<p>Development of employment areas and parkland in the North West Area shall be permitted to proceed unphased subject to the availability of physical services and suitable urban infrastructure such as water, wastewater collection and treatment facilities, fire and ambulance protection and transportation.</p>
<p>8.9.3 FINANCE</p> <p>It is a fundamental policy of this Plan that the impacts on existing taxpayers of the cost of new development within the Secondary Plan shall be minimized. In order to ensure the implementation of this policy, development shall only be permitted to proceed when:</p> <p>a) The Town has adopted a Development Charges By-law enacted under the Development Charges Act, 1997 or any successor legislation identifying and imposing charges applicable to the lands in the Planning Area;</p>	<p>Delete, redundant, operational</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>b) The Town has adopted a Financial Impact Assessment of the Secondary Plan;</p> <p>c) Landowners within the Planning Area have entered into an agreement or agreements or have made other satisfactory arrangements with the Town for the provision of funds or the provision of services or both in accordance with the Financial Impact Assessment and this Secondary Plan; and,</p> <p>d) A Financial and Implementation Plan has been approved by the Council of the Region of Halton prior to any development which may require updates to the Region's Development Charges By-laws.</p>		
<p>8.9.4 LANDOWNERS AGREEMENT(S)</p> <p>a) In order to ensure the appropriate and orderly development of the Secondary Plan area, and to ensure the costs associated with the development of the Secondary Plan are equitably distributed among all landowners, development within the 407 West Employment District and/or the Sixteen Hollow Employment District shall only be permitted to proceed when landowners representing a significant proportion of the respective employment district have entered into a cost sharing agreement or agreements amongst themselves to address the distribution of costs associated with development in a fair and equitable manner.</p>	<p>Revise, insert into LOP new Section 27.7 Implementation</p>	<p>Landowner Agreements</p> <p>i) In order to ensure the appropriate and orderly development of the North West Area, and to ensure the costs associated with the development of the North West Area are equitably distributed among all landowners, development shall only be permitted to proceed when landowners representing a significant proportion of the respective employment area have entered into a cost sharing agreement or agreements amongst themselves to address the distribution of costs associated with development in a fair and equitable manner.</p> <p>ii) The development of individual parcels of land shall generally not be permitted in the</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>b) The development of individual parcels of land shall generally not be permitted in the absence of participation in a landowners' cost sharing agreement, except in circumstances where the Town is satisfied that the development of the subject parcel would implement a logical extension of roads and services, the ability to appropriately and efficiently service the respective overall employment district is not prejudiced, and there is no risk of unacceptable financial impact to Town or the Region.</p>		<p>absence of participation in a landowners' cost sharing agreement, except in circumstances where the Town is satisfied that the development of the subject parcel would implement a logical extension of roads and services, the ability to appropriately and efficiently service the respective overall employment area is not prejudiced, and there is no risk of unacceptable financial impact to Town or the Region.</p>
<p>8.9.5 MONITORING</p> <p>General</p> <p>All development shall be monitored to ensure that:</p> <p>a) the overall progression is in accordance with the goals and objectives of this Plan;</p> <p>b) the targets of this Plan are being achieved;</p> <p>c) the health of the Natural Heritage component of the Natural Heritage and Open Space System is being maintained and any negative impacts are mitigated or can be rectified as soon as possible; and,</p> <p>d) the implementation of the policies of the Plan is being carried out in an appropriate, fiscally prudent manner.</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 28. Implementation</p>	<p>No change to LOP</p>
<p>8.9.5.2 Monitoring Program</p> <p>A program shall be established by the Town in</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 28.</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>consultation with the Region of Halton and Conservation Halton to monitor the development in the Planning Area on an annual basis. The monitoring program shall be in accordance with directions established in the North Oakville Creeks Subwatershed Study and shall also consider such factors as:</p> <ul style="list-style-type: none"> a) relationship and level of population and employment growth in North Oakville; b) supply of existing lots and number of building permits granted; c) the general achievement of housing mix targets in North Oakville; d) the functioning of stormwater management facilities to ensure they are constructed and operate as designed, e) stream alterations/relocations to ensure that natural channel designs were implemented and operate as designed; f) erosion and operation of sediment controls during construction; g) utilization of wastewater treatment and water supply system capacity; and, h) development application status. 	<p>Implementation.</p>	
<p>8.9.5.3 Monitoring Report</p> <p>An annual report shall be prepared to Council which shall:</p> <ul style="list-style-type: none"> a) outline the results of the monitoring program to date; b) analyze the implications of the monitoring program, particularly with respect to population, employment and housing mix 	<p>Delete, redundant</p> <p>Addressed in LOP Section 28. Implementation</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>targets, and environmental and fiscal impacts; and,</p> <p>c) make recommendations to address any issues of concern.</p> <p>The report shall be circulated to the Region of Halton, Conservation Halton and stakeholders.</p>		
<p>8.10 IMPLEMENTATION AND INTERPRETATION</p> <p>8.10.1 GENERAL</p> <p>The implementation and interpretation of this Secondary Plan shall generally be in accordance with the provisions of Part F of the Official Plan and the following policies. In addition, in implementing the Plan the Town shall have regard to the Secondary Plan Implementation Strategy, which includes zoning provisions, urban design guidelines, and other implementation mechanisms such as site alteration by-laws. The Town shall also have regard to:</p> <p>a) North Oakville Creeks Subwatershed Study;</p> <p>b) North Oakville Financial Impact Assessment Study;</p> <p>c) Town of Oakville Master Transportation Plan;</p> <p>d) North Oakville Servicing Master Plan;</p> <p>e) Town of Oakville Parks, Recreation, Culture and Library Master Plan;</p> <p>f) Town of Oakville Environmental Strategic Plan;</p>	<p>Revise and insert into LOP new Section 27.7 Implementation Policies</p>	<p>In addition to the policies in Part F of this plan, the following implementation policies apply specifically to the North West Area.</p> <p>a) Planning applications and supporting technical studies shall have regard for implementation guidelines and terms of reference, including:</p> <p>i) the applicable Zoning By-law;</p> <p>ii) Town master plans, including:</p> <ul style="list-style-type: none"> • North Oakville Urban Design and Open Space Guidelines • North Oakville Secondary Plan, Transit Plan • The Parks, Recreation, Culture and Library Master Plan • North Oakville Trails Plan • North Oakville Urban Forest Strategic Management Plan <p>iii) the applicable subwatershed study, including the North Oakville Creeks</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>g) Town of Oakville Fire Master Plan; h) Draft North Oakville Mixed Use Area Study Report; i) Region of Halton Transportation Master Plan; and, j) Region of Halton Master Water and Wastewater Master Plan.</p> <p>Prior to final approval of development in North Oakville West, with the exception of the development of the Health Oriented Mixed Use Node on the north side of Dundas St. at Third Line, the Town shall have undertaken and completed, in consultation with the landowners, the Secondary Plan Implementation Strategy. A range of implementation guidelines and approaches shall be included in the Strategy, in particular:</p> <p>i) North Oakville Zoning By-law (general regulations and zone categories); ii) Urban Design and Open Space Guidelines as per Section 8.5.3; iii) Parks Facilities Distribution Plan as per Section 8.7.4.2; iv) North Oakville Transit Plan as per Section 8.7.2.2; v) Typical road and trail cross sections; vi) Trails plan as per Section 8.5.5.10; and, vii) North Oakville Creeks Subwatershed Study Implementation Report.</p> <p>Final approval of the development in the Health Oriented Mixed Use Node may proceed prior to approval of the Implementation Strategy, however it shall reflect the policies of the Secondary Plan, particularly Section 8.5</p>		<p>Subwatershed Study Implementation Report;</p> <p>iv) Environmental Implementation Report and Functional Servicing Study, Terms of Reference; and,</p> <p>v) Transportation Impact Studies and Transportation Functional Design Studies, Terms of Reference.</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>Community Design Strategy, and the proposed Urban Design and Open Space Guidelines, including road and trail cross sections. In addition, it shall conform with the North Oakville Creeks Subwatershed Implementation Report.</p>		
<p>8.10.2 ZONING BY-LAW</p> <p>This Secondary Plan shall be implemented by appropriate amendments to the Town’s zoning by-law in accordance with the policies of this Secondary Plan and Part F, Section 1.3 of the Official Plan, in conjunction with draft plans of subdivision or other specific development applications. With respect to the bonus provisions of Section 1.3 b), in addition to the matters listed, bonusing for development may be considered for the provision of urban squares where the provision of such facilities would exceed the 5% parkland dedication requirements, municipal parking structures, underground parking, structured parking, and enhanced streetscape facilities.</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 28. Implementation</p>	<p>No change to LOP</p>
<p>8.10.3 EXISTING NON-CONFORMING USES</p> <p>Notwithstanding any other provision of this Plan or of the Official Plan, this Plan is not intended to prevent the continuation, expansion or enlargement of existing uses which do not conform to the designations or provisions of this Plan.</p> <p>It shall be the policy of this Plan that where an existing land use is not permitted in the</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 28. North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>The provisions of this Secondary Plan shall prevail over the provisions of the Town of Deleté, redundant Oakville Official Plan in the event of any conflict.</p>	<p>Addressed in LOP Section 29. Interpretation</p>	
<p>8.10.9 REQUIRED STUDIES</p> <p>Where this Plan requires the submission of technical studies by the applicant in support of a development application, the Town may, in special circumstances and acting reasonably, retain a peer review consultant at the expense of the applicant to review such studies, or where there is an issue of significance, at its discretion and after consultation with the applicant, require that such studies be carried out by a consultant retained by the Town at the cost of the applicant. Where the Town retains the consultant to carry out the study at the cost of the applicant, the applicant shall have input to the establishment of terms of reference, a specific cost limit and schedule for the completion of the study, which shall be established prior to the commencement of the study.</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 28. Implementation</p>	<p>No change to LOP</p>
<p>8.10.10 MAINTENANCE AND OCCUPANCY CONTROLS</p> <p>The policies of the Official Plan in Part C, Section 11 with respect to Maintenance and Occupancy Controls shall apply in the North Oakville West Planning Area.</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 28. Implementation</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>8.10.11 COMMUNITY IMPROVEMENT</p> <p>The policies of the Official Plan in Part C, Section 13 with respect to Community Improvement shall apply in the North Oakville West Planning Area.</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 28. Implementation</p>	<p>No change to LOP</p>
<p>8.10.12 INTERPRETATION</p> <p>This Plan shall be interpreted in accordance with the provisions of the Official Plan in Part F, Sections 2.1, 2.2, 2.3, 2.4 i, ii, and iii, 2.5, 2.6, 2.7 and the definitions in Section 2.8 and the additional definitions in Section 8.10.13.</p> <p>However, the Appendices following the material set out in Schedule 1 do not form part of the Official Plan as amended.</p>	<p>Delete, redundant</p> <p>Addressed in LOP Section 29. Interpretation</p>	<p>No change to LOP</p>
<p>8.10.13 DEFINITIONS</p>	<p>Delete entire Definitions section, rationale provided individually below</p> <p>Definitions added or modified by OPA 322 do not need to be added to LOP since they already were by OPA 15, sections not under appeal</p>	<p>No change to LOP</p>
<p>a) Traffic Calming</p> <p>This term shall mean a form of transportation planning which seeks to harmonize the use of streets by automobiles, pedestrians, bicyclists, playing children and other street uses. This is accomplished through the use of alternative engineering</p>	<p>Delete, operational</p>	<p>No change to LOP</p>

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>design standards and streetscape design devices and techniques including on-street parking, traffic circles and extended sidewalks that diversify street uses and control traffic volumes and speed while maintaining maximum mobility and access. Traffic calming also is directed at making drivers aware of the fact that they are sharing the street with other uses.</p>		
<p>b) Flat-lining the Energy Profile The combination of land uses so they off-set the electricity and related heating and cooling peaks throughout the day. This reduces the amount of infrastructure required for the community and creates opportunities for district energy systems.</p>	Delete, operational	No change to LOP
<p>c) Floor Space Index The gross floor area of all buildings on a lot divided by the lot area.</p>	Delete, duplicative	No change to LOP
<p>d) Retail Commercial Retail commercial uses do not include office uses.</p>	Delete, redundant	No change to LOP
<p>e) Net Hectare shall be calculated based on the area of the lot excluding all other areas. In particular, local, collector and arterial roads, public and private lanes, parks, schools and storm water management ponds and any other area of a plan used for open space purposes including but not limited to valleylands, woodlots, wetlands, buffers and linkages shall be excluded from the calculation of net hectare.</p>	Delete, redundant	No change to LOP

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
f) Gross Developable Area shall be calculated as the total area of land excluding the Natural Heritage System component of the Natural Heritage and Open Space System.	Delete, term is not used in the NOWSP nor LOP	No change to LOP
g) Utilities include power, telephone, telecommunications and other cable services, as well as gas and district energy services.	Delete, duplicative	No change to LOP
h) Cultural heritage resources include buildings, structures and properties designated or listed under the Ontario Heritage Act; and significant built heritage resources and significant cultural heritage landscapes as defined and interpreted by the applicable Provincial Policy Statement.	Delete, duplicative	No change to LOP
i) Urban Heat Island Effect reflects the fact that as population centres grow they tend to have a corresponding increase in the average temperature and become significantly warmer than surrounding rural areas.	Delete, operational	No change to LOP
j) Low Density Residential Development or uses shall consist primarily of single detached, semi-detached and duplex dwellings or similar types of dwellings, all with direct frontage and access to a public or private street.	Delete - not required, no housing in NW outside of Growth Areas.	No change to LOP

North Oakville West Secondary Plan	Change Rationale	Livable Oakville Plan
<p>k) Medium Density Residential Development, buildings or uses shall consist primarily of single detached dwellings on small lots, semi-detached, duplex and triplex dwellings, as well multiple attached dwelling units such as townhouses, back-to-back townhouses, block townhouses, stacked townhouses or similar types of dwellings, the majority with direct frontage and access to a public or private street.</p>	<p>Delete - not required, no housing in NW outside of Growth Areas.</p>	<p>No change to LOP</p>
<p>l) High Density Residential Development, buildings or uses shall consist of stacked townhouses, back-to-back townhouses and apartments or similar types of dwellings</p>	<p>Delete - not required, no housing in NW outside of Growth Areas.</p>	<p>No change to LOP</p>
