

OAKVILLE

REPORT

PLANNING AND DEVELOPMENT COUNCIL MEETING

MEETING DATE: NOVEMBER 23, 2020

FROM: Planning Services Department

DATE: November 11, 2020

SUBJECT: **Public Meeting Report - Town-initiated Official Plan Amendment - Hospital District (File No. 42.15.57)**

LOCATION: North of Dundas Street West at Third Line

WARD: 7

Page 1

RECOMMENDATION:

1. That the staff report titled “Public Meeting Report – Town-initiated Official Plan Amendment – Hospital District (File No. 42.15.57)”, prepared by the Planning Services Department and dated November 11, 2020, be received.
2. That comments from the public with respect to the draft town-initiated official plan amendment to implement the findings of the Hospital District Study (File No. 42.15.57) be received.
3. That staff consider comments provided by Council.

KEY FACTS:

The following are key points for consideration with respect to this report:

- The town’s Official Plan Review was launched at a Special Public Meeting of Planning and Development Council on May 11, 2015. The Hospital District Study is being undertaken as part of the town’s ongoing Official Plan Review and the implementation of the approved and established town-wide urban structure.
- As part of the ongoing Regional Official Plan Review, Halton Region is determining how to accommodate forecasted population and employment growth in the region to 2051 through its Integrated Growth Management Strategy (IGMS) project. The town’s Official Plan Review provides detailed analyses of local priorities for accommodating future growth in support of Halton Region’s municipal comprehensive review.

From: Planning Services Department
 Date: November 11, 2020
 Subject: **Public Meeting Report - Town-initiated Official Plan Amendment - Hospital District (File No. 42.15.57)**

- The North Oakville West Secondary Plan of the 1984 Official Plan, as amended, identifies the lands north of Dundas Street at Third line as a Health Oriented Mixed Use Node.
- Council adopted Official Plan Amendments 15, 317 and 318 for a town-wide Urban Structure on September 27, 2017, which identifies the lands around the Oakville Trafalgar Hospital as a Node for Further Study.
- The Hospital District Study was initiated on June 11, 2018 and a consultant, Sajecki Planning, was retained by the town in early 2019 to complete the study and prepare an Area Specific Plan for the Hospital District.
- The town-initiated draft official plan amendment is based on the findings of the Hospital District Study and resulting Area Specific Plan.
- The proposed amendment would incorporate the Hospital District lands into the Livable Oakville Official Plan, in accordance with Council's objective to consolidate and harmonize the town's official plan documents.
- The purpose of the Public Meeting at Planning and Development Council is for Council to hear delegations on the proposed draft Official Plan Amendment, ask questions of clarification and identify planning matters to be considered.

BACKGROUND:

1984 Town of Oakville Official Plan, as amended

Council adopted the 1984 Official Plan on July 5, 1983. It was approved as modified by the Minister of Municipal Affairs and Housing on December 21, 1984, subject to certain referrals and deferrals.

Since 1984, numerous amendments to the 1984 Official Plan have been approved, including Official Plan Amendment Number 289 (OPA 289; North Oakville West Secondary Plan). OPA 289 was approved by Council on May 25, 2009 and is in full force and effect except for a site-specific appeal by Newmark Developments Ltd. in respect of certain lands between Fourteen Mile Creek, Highway 407, Old Bronte Road and Dundas Street West.

The North Oakville West Secondary Plan provides policy direction for growth and development to the year 2021. It sets out the ultimate plan for the North Oakville West Secondary Plan Area; however, build-out will not be achieved within the

From: Planning Services Department
Date: November 11, 2020
Subject: **Public Meeting Report - Town-initiated Official Plan Amendment - Hospital District (File No. 42.15.57)**

planning period. It was prepared to conform to the 2006 Growth Plan and be consistent with the 2005 Provincial Policy Statement.

Section 8.6.5.1 of the North Oakville West Secondary Plan states that a Health Oriented Mixed Use Node will be located on the north side of Dundas Street at Third Line, and where applicable, the range and scale of uses are to be designed to be sensitive to the adjacency and compatibility with development in the Health Oriented Mixed Use Node.

Section 8.6.5.2 states that the Health Oriented Mixed Use Node will include a hospital and may also include research and development facilities, medical and other offices, laboratories, clinics, supportive housing, long term care facilities, rehabilitation facilities, and other similar uses including retail and service commercial facilities related to the permitted uses.

Livable Oakville Official Plan

Livable Oakville is the town's official plan for the lands south of Dundas Street and north of Highway 407. It provides land use designations and policies to guide development to the year 2031. The Plan was adopted by Council in June 2009 and approved by Halton Region in November 2009, with modifications, as it was deemed to conform to the 2006 Growth Plan and the Region's Official Plan, as amended, and to be consistent with the 2005 Provincial Policy Statement. A number of parties appealed the Region's decision to the Ontario Municipal Board. The Board subsequently adjudicated the majority of the appeals and approved the Plan, with further modifications, in May 2011.

The Livable Oakville Plan was the result of a comprehensive planning exercise that involved extensive public consultation, numerous background and technical studies, and policy development.

Town of Oakville Official Plan Review

On February 10, 2014, Planning and Development Council received a staff report entitled "Long Range Planning Work Program" which signaled the commencement of the next five-year Official Plan Review.

On May 11, 2015, Planning and Development Council hosted a Special Public Meeting and received a staff report titled "Official Plan Review – Special Public Meeting" launching the five-year Official Plan Review. The report identified that the North Oakville Secondary Plans Review would form part of the Official Plan Review.

From: Planning Services Department
Date: November 11, 2020
Subject: **Public Meeting Report - Town-initiated Official Plan Amendment - Hospital District (File No. 42.15.57)**

As part of the town's ongoing Official Plan Review, Council adopted Official Plan Amendments (OPAs) for a town-wide Urban Structure on September 27, 2017:

- OPA 15 (By-law 2017-079) introduced a new Section 3 – Urban Structure and Schedule A1 –Urban Structure into the town's Official Plan, the Livable Oakville Plan.
- OPA 317 (By-law 2017-080) and OPA 318 (By-law 2017-081) provided for revisions to the North Oakville East Secondary Plan and the North Oakville West Secondary Plan respectively, to align them with the urban structure changes to the Livable Oakville Plan.

The new town-wide urban structure identifies the area north of Dundas Street at Third Line as a "Node for Further Study".

On April 26, 2018, the Region of Halton approved OPAs 15, 317 and 318 with modifications, to establish a town-wide urban structure. At the time of approval, the town-wide Urban Structure was deemed to be consistent with the Provincial Policy Statement, 2014, to conform to the Regional Official Plan, 2009 and the Growth Plan, 2017.

Subsequent to the Region's approval, OPA 15 was appealed to the Local Planning and Appeal Tribunal (LPAT). As a result of this appeal, the town-wide urban structure is not in full force and effect.

Notwithstanding this appeal, the town-wide Urban Structure represents a community-based view and a unanimous Council direction to provide for the long-term protection of natural heritage, public open space and cultural heritage resources, maintains the character of residential areas and is the foundation to direct growth to identified nodes and corridors.

The town-wide Urban Structure was the first step to bring the North Oakville Secondary Plans and the Livable Oakville Plan together into one Official Plan document.

Hospital District Study

The area around the hospital has been recognized since 2009 as unique through its identification as a Health Oriented Mixed Use Node in the North Oakville West Secondary Plan. The adoption of the town-wide Urban Structure (OPA 15) further confirmed this by identifying the area as a "node for further study", which indicated the lands were distinctive and that further study was required to establish a more detailed Area Specific Plan.

From: Planning Services Department
Date: November 11, 2020
Subject: **Public Meeting Report - Town-initiated Official Plan Amendment - Hospital District (File No. 42.15.57)**

The Hospital District Study addresses that need, by establishing an appropriate boundary and providing direction on the planned character, scale, mix of uses and intensity of growth at this location.

On June 11, 2018, the Livable Oakville (Official Plan Review) Council Sub-Committee (LOCSC) received a report that initiated the study of the Health Oriented Mixed Use Node and set out a preliminary scope and timeframe for the review.

In March 2018, the Town of Oakville retained consulting firm Sajecki Planning Inc., in association with Paradigm Transportation Solutions Ltd, WSP, Stewart Hawes Design, Urban Metrics Inc. and Strategy Corp to undertake the Hospital District Study and associated supporting technical studies.

On October 7, 2019 a LOCSC meeting was held to provide an update on the Hospital District Study and the work completed to date by the consultant, including a Background Facts Report and a Best Practices Report, as well as to provide an update on the study timeline and next steps.

On November 25, 2019 a public workshop was held to introduce the study, its purpose, process and objectives, existing conditions, draft vision and guiding principles, key directions and seek feedback from the public on two draft land use options.

A number of background and technical studies were prepared as part of the study process, including:

- Best Practices Report by Sajecki Planning (September 2019);
- Background Facts Report by Sajecki Planning (October 2019);
- Directions and Options Report by Sajecki Planning (July 2020);
- Financial Analysis by Urban Metrics Inc. (October 2020);
- Market & Development Trends Analysis by Urban Metrics Inc. (November 2019);
- Transportation Impact Study by Paradigm Transportation Solutions Ltd. (August 2020); and,
- Water, Wastewater and Stormwater Servicing Study by WSP (August 2020).

In October, 2020, the consulting team finalized the Area Specific Plan for the Hospital District. The objectives of the ASP include:

- Define the Hospital District's primary function and role in the context of the Town of Oakville and the North West Secondary Plan, which identified the area as a node;
- Establish targets for employment and population growth;

From: Planning Services Department
Date: November 11, 2020
Subject: **Public Meeting Report - Town-initiated Official Plan Amendment - Hospital District (File No. 42.15.57)**

- Determine the appropriate mix of uses, scale of built form and transitions to adjacent areas;
- Identify strategies to accommodate a range of employment-supportive amenities and a more compact, transit-supportive and pedestrian-friendly environment; and,
- Explore implementation opportunities.

Policy and Plans Review

Since the North Oakville West Secondary Plan and the Livable Oakville Plan came into effect in 2009 and 2011, a number of new provincial plans have been introduced. Municipal plans are required to be consistent with or conform to these provincial plans, including the new Growth Plan for the Greater Golden Horseshoe (Office Consolidation 2020) which is now in effect. These updated provincial plans have been considered in the development of the Hospital District policies contained in the draft proposed OPA.

The draft proposed OPA also addresses the Halton Region's Official Plan policies, including the requirements associated with establishing new growth areas, which the Hospital District is considered.

Provincial Policy Statement (2020)

The Provincial Policy Statement (PPS) sets out the Province's land use vision and overall policy direction on matters of provincial interest related to land use and development. The principles of the PPS are to promote strong, sustainable and resilient communities for people of all ages, a clean and healthy environment, and a strong and competitive economy.

The 2014 PPS was replaced by the 2020 PPS, which came into effect on May 1, 2020. Decisions affecting planning matters are to be consistent with the PPS.

A key component of the PPS is directing growth to settlement areas to achieve efficient land use patterns and promoting a compact development form. The Hospital District is within a settlement area, which is intended to be the focus of growth and development.

The policies of the PPS can be complemented and built upon by provincial and municipal plans to provide comprehensive, integrated, place-based and long-term plans that support and integrate the principles of the PPS.

From: Planning Services Department
Date: November 11, 2020
Subject: **Public Meeting Report - Town-initiated Official Plan Amendment - Hospital District (File No. 42.15.57)**

Growth Plan for the Greater Golden Horseshoe (Office Consolidation 2020)

The Growth Plan is the province's long-term framework to plan for growth and development in a way that supports economic prosperity, protects the environment and helps develop complete communities to achieve a high quality of life.

On May 16, 2019, A Place to Grow: Growth Plan for the Greater Golden Horseshoe (Growth Plan) came into effect. It was later amended by Growth Plan Amendment 1, which came into effect on August 28, 2020 (Office Consolidation 2020). All planning decisions must conform to the Growth Plan, subject to any legislative or regulatory provisions providing otherwise. As such, municipal official plans are required to be updated to conform to the Growth Plan through a municipal comprehensive review process.

The current version of the Growth Plan (Office Consolidation 2020) extends the planning horizon to the year 2051, and identifies new population and employment forecasts to the 2051 planning horizon.

Under the Growth Plan, and as directed by the Town's approved urban structure, the Hospital District is considered a strategic growth area, which is defined in the Growth Plan as:

Strategic Growth Areas - Within settlement areas, nodes, corridors, and other areas that have been identified by municipalities or the Province to be the focus for accommodating intensification and higher-density mixed uses in a more compact built form. Strategic growth areas include urban growth centres, major transit station areas, and other major opportunities that may include infill, redevelopment, brownfield sites, the expansion or conversion of existing buildings, or greyfields. Lands along major roads, arterials, or other areas with existing or planned frequent transit service or higher order transit corridors may also be identified as strategic growth areas.

The Hospital District is also considered within a Designated Greenfield Area, which is defined as:

Designated Greenfield Area - Lands within settlement areas (not including rural settlements) but outside of delineated built-up areas that have been designated in an official plan for development and are required to accommodate forecasted growth to the horizon of this Plan. Designated greenfield areas do not include excess lands.

In developing draft policies for the Hospital District, the policies of the new Growth Plan (Office Consolidation 2020) have been reviewed and incorporated where

From: Planning Services Department
Date: November 11, 2020
Subject: **Public Meeting Report - Town-initiated Official Plan Amendment - Hospital District (File No. 42.15.57)**

applicable. While the Plan is to be read in its entirety, the following are a sample of relevant policies for the Hospital District:

2.2.7 Designated Greenfield Areas

1. New development taking place in designated greenfield areas will be planned, designated, zoned and designed in a manner that:
 - a) supports the achievement of complete communities;
 - b) supports active transportation; and
 - c) encourages the integration and sustained viability of transit services.

5.2.3. Co-ordination

2. Upper-tier municipalities, in consultation with lower-tier municipalities, will, through a municipal comprehensive review, provide policy direction to implement this Plan, including:
 - b) identifying minimum density targets for strategic growth areas, including any urban growth centres or major transit station areas, in accordance with this Plan;
 - d) identifying minimum density targets for the designated greenfield areas of the lower-tier municipalities, to achieve the minimum density target for the upper- or single-tier municipality;

As noted in the policies of section 5.2.3 above, minimum density targets must be established as part of a municipal comprehensive review (MCR). An MCR is defined in the Growth Plan as:

Municipal Comprehensive Review - A new official plan, or an official plan amendment, initiated by an upper- or single-tier municipality under section 26 of the Planning Act that comprehensively applies the policies and schedules of this Plan.

This policy requires the minimum density target be established by the town's upper-tier municipality Halton Region, in consultation with the town, as part of the Region's municipal comprehensive review process.

Halton Region Official Plan (2018 Consolidation)

The Halton Region Official Plan provides policy direction for land use planning in Halton Region. Initially adopted in 1994, and approved by the Ministry of Municipal Affairs and Housing in 1995, there have been a number of major reviews and amendments to the Regional Plan since that time. The Halton Region Official Plan is in full force and effect as it applies to the Hospital District.

From: Planning Services Department
 Date: November 11, 2020
 Subject: **Public Meeting Report - Town-initiated Official Plan Amendment - Hospital District (File No. 42.15.57)**

All development in Oakville is subject to the policies of the Regional Plan. The Hospital District is designated Urban Area with an Employment Area overlay in the Halton Region Official Plan.

Section 72 outlines the objectives of the Urban Area, which include:

(2) To support a form of growth that is compact and supportive of transit usage and non-motorized modes of travel, reduces the dependence on the automobile, makes efficient use of space and services, promotes live-work relationships and fosters a strong and competitive economy.

(7) To plan and invest for a balance of jobs and housing in communities across the Region to reduce the need for long distance commuting and to increase the modal share for transit and active transportation.

(10) To provide for an appropriate range and balance of employment uses including industrial, office and retail and institutional uses to meet long-term needs.

Where development occurs in Designated Greenfield Areas, S. 77(2.4) of the Halton Region Official Plan requires that development to:

- a) contribute towards achieving the development density target of Table 2 and the Regional phasing of Table 2a;
- b) contribute to creating healthy communities;
- c) create street configurations, densities, and an urban form that support walking, cycling and the early integration and sustained viability of transit services;
- d) provide a diverse mix of land uses, including residential and employment uses to support vibrant neighbourhoods; and
- e) create high quality parks and open spaces with site design standards and urban design guidelines that support opportunities for transit and active transportation.

The Region also provides direction to local municipalities on growth areas in S. 77(5):

Require the Local Municipalities to prepare Area-Specific Plans or policies for major growth areas, including the development or redevelopment of communities. The area may contain solely employment lands without residential uses or solely an Intensification Area. Such plans or policies shall be incorporated by amendment into the Local Official Plan and shall demonstrate how the goals and objectives of this Plan are being attained and shall include, among other things:

From: Planning Services Department
 Date: November 11, 2020
 Subject: **Public Meeting Report - Town-initiated Official Plan Amendment - Hospital District (File No. 42.15.57)**

- a) a general statement of the intended character of the area or community,
- b) boundaries of the area or community,
- c) policies for the protection of the Regional Natural Heritage System and for the protection of public health and safety within hazard lands,
- d) capacity targets of population, housing units and employment, including targets for Affordable Housing,
- e) land use patterns that promote mixed-use, compact, transit-supportive, walkable communities, including the locations of local facilities for social, cultural, recreational, educational and religious purposes,
- f) location, types and density of residential and employment lands that contribute to creating healthy communities through:
 - [i] urban design,
 - [ii] diversity of land uses,
 - [iii] appropriate mix and densities of housing,
 - [iv] provision of local parks and open space,
 - [v] strengthening live-work relationship through a proper balance of residential and employment land uses, and
 - [vi] promoting active transportation and public transit use.
- f.1) consideration for land use compatibility in accordance with Regional and Ministry of the Environment guidelines,
- g) overall development density for the area or community and, if it is located within the Designated Greenfield Area, how this density will contribute towards achieving the minimum overall development density for Designated Greenfield Areas in the Local Municipality as set out in Table 2 and the Regional phasing as set out in Table 2a,
- h) a transportation network that promotes public transit and active transportation, including a strategy for early introduction of transit services,
- i) development phasing,
- j) storm water management or, if the scale of development justifies, a Subwatershed Study as per Section 145(9),
- k) Environmental Impact Assessments, if any part of the Regional Natural Heritage System is affected in an area not covered by a Sub-watershed Study,
- l) an Air Quality Impact Assessment based on guidelines under Section 143(2.1),
- m) water and wastewater servicing plans,
- n) provision of utilities,
- o) a fiscal impact analysis,
- p) a community infrastructure plan, based on Regional guidelines, describing where, how and when public services for health, education, recreation, sociocultural activities, safety and security and Affordable Housing will be provided to serve the community, and

From: Planning Services Department
Date: November 11, 2020
Subject: **Public Meeting Report - Town-initiated Official Plan Amendment - Hospital District (File No. 42.15.57)**

- q) an Agricultural Impact Assessment on potential impact of urban development on existing agricultural operations, including the requirement for compliance with the Minimum Distance Separation formulae where an agricultural operation is outside the Urban Area

The Hospital District Study's resulting Area Specific Plan and the policies contained within the proposed OPA addresses the Region's requirements set out in S. 77(5).

The Halton Region Official Plan is also under review, as required by the *Planning Act*. This review is considered a Municipal Comprehensive Review (MCR), and will result in updates to the Regional Official Plan that provide for conformity with updated Provincial Plans and consistency with the Provincial Policy Statement.

Halton Region's Official Plan Review (Municipal Comprehensive Review)

Halton Region released the Integrated Growth Management Strategy, Regional Urban Structure Discussion Paper in July 2020 for consultation. This strategy will address the 2020 Growth Plan (Office Consolidation 2020) requirement for Halton Region to accommodate 1.1 million people and 500,000 jobs by 2051.

The Regional Urban Structure identifies Community Areas and Employment Areas. Within the Community Area, the identification of Strategic Growth Areas is an important component of the Region's overall growth management strategy.

The Regional Official Plan Review is being advanced in partnership with the Region's local municipalities of Burlington, Halton Hills, Oakville and Milton. Many of the foundational studies examining intensification opportunities are being prepared by the local municipalities, including the town's Hospital District Study. It is important that a Regional vision for growth is compatible with and supported by local municipal plans and priorities.

As reported by Halton Region, there are several local planning initiatives that define growth, intensification and urban structure that have been prepared and/or endorsed by local municipalities, but not yet recognized in the Regional Official Plan. In many cases, these initiatives are generally supported by the community and local Councils, but need to be reflected in the Regional Official Plan in order to be implemented.

In a letter to Halton Region dated November 12, 2019, the Minister of Municipal Affairs and Housing confirmed that an upper-tier municipality like Halton Region may advance the municipal comprehensive review of its official plan in a phased manner. On September 16, 2020, Regional Council, through report LPS84-20, "Advancing Key Planning Priorities of the Halton Municipalities through the Regional Official Plan Review," directed Regional planning staff to prepare an initial Regional Official

From: Planning Services Department
Date: November 11, 2020
Subject: **Public Meeting Report - Town-initiated Official Plan Amendment - Hospital District (File No. 42.15.57)**

Plan Amendment (ROPA) under Section 26 of the *Planning Act* to address certain strategic local municipal planning priorities related to urban structure – to the extent appropriate at this stage of the overall Regional Official Plan Review.

COMMENT/OPTIONS:

The purpose of this report is to introduce the town-initiated draft official plan amendment (OPA) to implement the findings of the consultant-led Hospital District Study. The statutory Public Meeting, required by the *Planning Act*, will provide Council the opportunity to hear public delegations on the proposed draft OPA, ask questions of clarification and identify planning matters to be considered.

This report brings forward and describes the proposed draft OPA (Appendix A) as well as the consultant-prepared Area Specific Plan for the Hospital District (Appendix B).

The effect of the proposed OPA includes changes to:

- update schedules to include the Hospital District as a growth area as part of the Livable Oakville Plan area;
- introduce a land use schedule for the Hospital District (“Schedule R, Hospital District”), providing for a mix of uses including institutional, employment, residential and commercial, and future roads;
- introduce a new “Schedule B1, Natural Features & Hazards” to replace the existing Schedule B, identifying the Hospital District growth area;
- revise the plan’s introduction and general policies to recognize the lands added to the Livable Oakville Plan area; and
- introduce area-specific policies for the Hospital District Growth Area, including the goal, objectives and development concept, as well as functional, urban design, land use, exception and implementation policies, to enable redevelopment that is contextually appropriate.

The proposed amendment will result in change to the following parts of the Livable Oakville Plan:

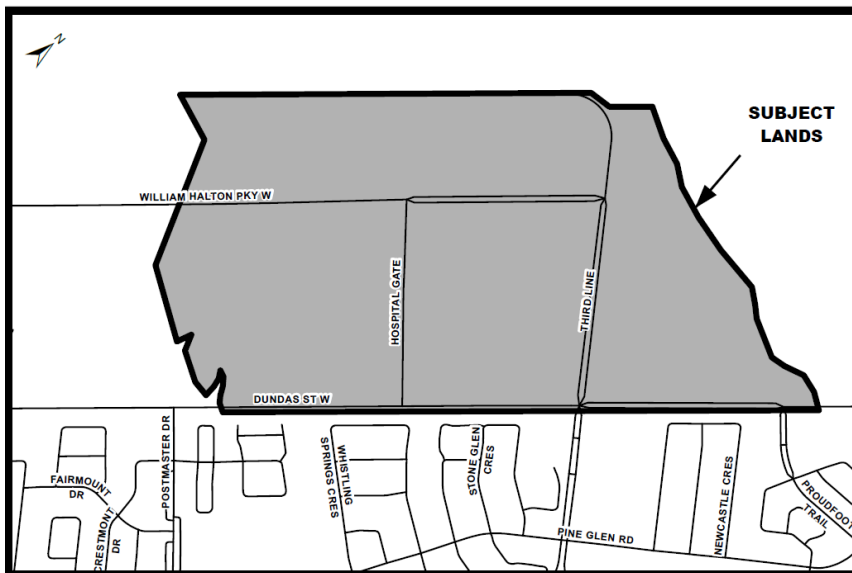

- Section 1 (Introduction);
- Section 3 (Urban Structure);
- Section 4 (Managing Growth and Change);
- a new Section 26 (Hospital District);
- Section 12.5 (Mixed Use);
- Schedule A1 – Urban Structure;
- Schedule A1 – Urban Structure, OPA 15;
- Schedule A2 – Built Boundary & Urban Growth Centre;
- Schedule B – Natural Features & Hazard Lands;

From: Planning Services Department
 Date: November 11, 2020
 Subject: Public Meeting Report - Town-initiated Official Plan Amendment - Hospital District (File No. 42.15.57)

- a new Schedule B1 – Natural Features & Hazard Lands;
- Schedule C – Transportation Plan;
- Schedule E – Land Use Schedule Boundaries;
- Schedule K – North West Land Use;
- a new Schedule R – Hospital District;
- Appendix 2 – Site Specific Appeals: Livable Oakville; and,
- Appendix 3 – Site Specific Appeals: OPA 4.

Description of the proposed Official Plan Amendment

The proposed draft official plan amendment applies to the ‘subject lands’ in the map below.

The policies in the town-initiated official plan amendment are based on the work undertaken as part of the consultant-led Hospital District Study, including:

- Comments received from the public, Livable Oakville Council Sub-committee, and town staff;
- Findings from the following consultant-prepared documents:
 - Best Practices Report (Sajecki Planning)
 - Background Facts Report (Sajecki Planning)
 - Directions and Options Report (Sajecki Planning)
 - Financial Analysis (Urban Metrics Inc.)
 - Market & Development Trends Analysis (Urban Metrics Inc.)
 - Transportation Impact Study (Paradigm)
 - Water, Wastewater and Stormwater Servicing Study (WSP)

From: Planning Services Department
Date: November 11, 2020
Subject: **Public Meeting Report - Town-initiated Official Plan Amendment - Hospital District (File No. 42.15.57)**

- Urban Design Direction (Sajecki Planning)
- Hospital District Area Specific Plan (Sajecki Planning)
- Directions through the Urban Structure Review; and,
- Assessment of Provincial and Regional policies.

The draft OPA (Appendix A) proposes to introduce a new growth area with a dedicated policy section and land use schedule in the Livable Oakville Plan. It also proposes revisions to existing Livable Oakville policies and schedules to recognize the new growth area. The policy amendments are discussed below by theme.

New Part E: Hospital District Growth Area Policy Section

A new policy Section 26: Hospital District is proposed to be inserted in Part E, following the existing Growth Areas sections. The existing Section 26: Special Policy Areas and all subsequent sections would be renumbered to Section 27: Special Policy Areas and so forth.

The new Section 26: Hospital District contains the goal, objectives and development concept, as well as functional, urban design, land use, exception and implementation policies, to enable redevelopment that is contextually appropriate.

It is intended that the Hospital District develop as a compact, mixed-use, transit oriented and walkable urban campus. It will have an emphasis on institutional and office development, with residential uses permitted where complementing the employment capacity of the district. The Oakville Trafalgar Memorial Hospital (OTMH) is to be the heart of the Hospital District.

Institutional and Employment Focused Mixed-Use

The Hospital District will be an urban community with an emphasis on institutional and office development, given its identification as within an employment area in existing regional and local policy frameworks. However, to meet the provincial, regional and local objectives for strategic growth areas and mixed use nodes, additional uses, including residential, are contemplated for the Hospital District.

Having been identified as a Health Oriented Mixed Use Node and Node for Further Study in the local policy context, additional uses beyond traditional employment uses have been contemplated for this area since the North Oakville West Secondary Plan was approved in 2009. The Oakville Trafalgar Memorial Hospital (OTMH) is considered a sensitive land use, which also restricts the types of uses that can locate within 300m of the Hospital. Employment uses that are industrial in nature are not permitted.

This is illustrated in the below Figure 1, which demonstrates a 300m sensitive land use buffer from existing and proposed residential (yellow), from OTMH (blue), and the proposed long term care facility associated with the lands subject to a current Minister’s Zoning Order (MZO, issued in August, 2020).

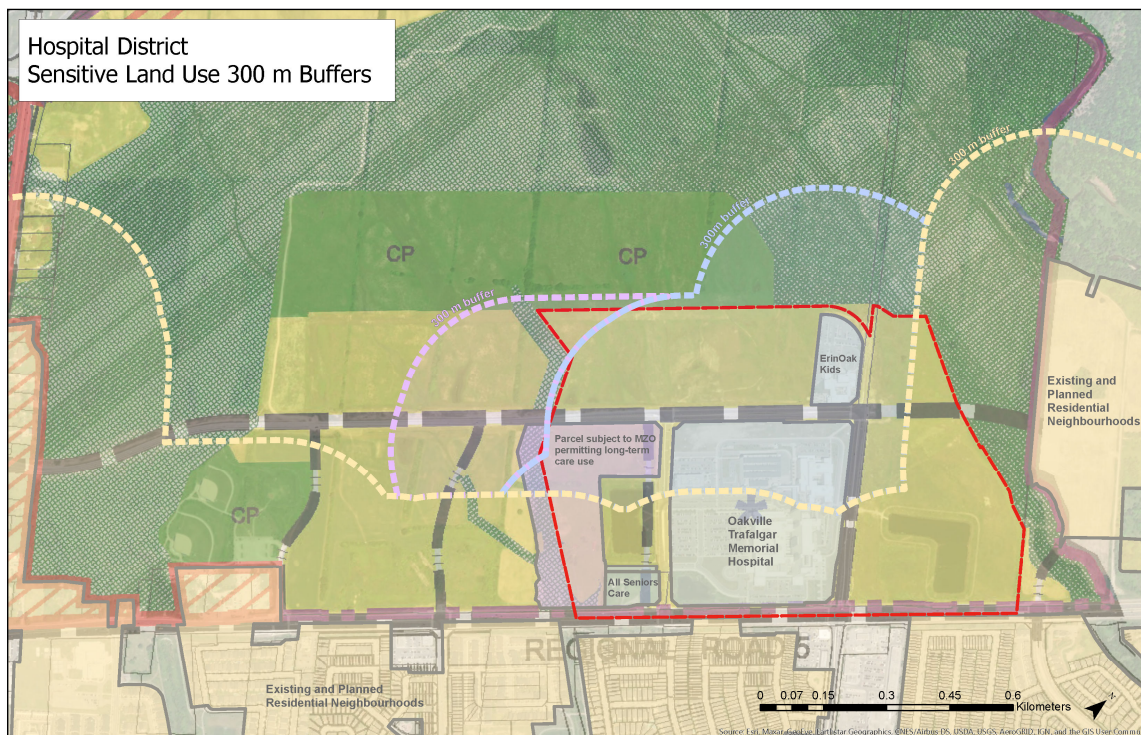

Figure 1: Sensitive land use buffers

As shown, only a small portion of the NW corner of the Hospital District is not covered by the 300m buffer requirement from OTMH, and when factoring in the proposed future long term care facility on the MZO site, the entirety of the Hospital District is within the buffer area. As a result, the Hospital District is in a unique position to accommodate a range of institutional, office, commercial and residential uses, while still maintaining an employment focus.

Provincial and regional policies support the achievement of complete communities that are compact and transit supportive. In order to achieve this, the Hospital District provides a diverse mix of land uses, including residential and employment uses to support a vibrant community.

Employment Thresholds

The proposed OPA introduces an employment threshold requirement to the land use policies for the Hospital District, which ensures that a percentage of the

From: Planning Services Department
Date: November 11, 2020
Subject: **Public Meeting Report - Town-initiated Official Plan Amendment - Hospital District (File No. 42.15.57)**

proposed gross floor area of a development will be employment uses before any residential development can be achieved.

As part of the Development Concept, five land use districts have been introduced. These are based on the five precincts outlined in the Area Specific Plan (Appendix B). Each land use district has a specific employment threshold that must be met before residential uses can be considered.

Exceptions

Two site specific exceptions are proposed within the Hospital District. They reflect approved applications for the All Seniors Care development, which has a minimum building height of 4 storeys; and the Oakville Green Phase 1 development, which has a maximum building height of 15 storeys.

Long Term Care Facilities

As indicated above, a portion of the Hospital District lands are subject to a Minister's Zoning Order to permit the development of long term care facilities. These lands are located at the south west corner of Hospital Gate and William Halton Parkway. Long term care facilities are permitted under the existing North Oakville West Secondary Plan policies, and to ensure consistency and clarity on this use within the Livable Oakville framework, the proposed OPA includes a land use policy that permits long term care facilities in all land use designations within the Hospital District.

New Hospital District Land Use Schedule

A new land use schedule "Schedule R, Hospital District Land Use" is proposed which identifies:

- growth area boundary
- areas designated Urban Core (a mixed use designation)
- areas designated Institutional
- five land use districts
- proposed roads
- stormwater management facilities
- site specific exceptions

Updates to existing policies and schedules

The proposed OPA revises the Livable Oakville Plan's introduction and general policies to recognize the Hospital District lands as being added to the Livable Oakville Plan Area. A number of land use schedules have also been updated to

From: Planning Services Department
Date: November 11, 2020
Subject: **Public Meeting Report - Town-initiated Official Plan Amendment - Hospital District (File No. 42.15.57)**

reflect the delineation of the Hospital District as a growth area within the Livable Oakville Plan area.

Conclusion

The consultant-led Hospital District Study, which forms part of the town's broader Official Plan Review, provides more certainty to the existing concept of a Health Oriented Mixed Use Node around the Oakville Trafalgar Memorial Hospital by establishing a growth area boundary for the Hospital District and policy directions to guide future development.

The proposed OPA is attached as Appendix A to this report and is based on the findings and recommendations of the Hospital District Study. It sets out an appropriate mix of land uses consistent with a hospital setting, as well as the appropriate scale and intensity of future development for the area.

This report and meeting is intended to satisfy the statutory Public Meeting requirements of the *Planning Act*, and provide Council the opportunity to hear public delegations on the proposed OPA, ask questions of clarification and identify planning matters to be considered.

Comments from the public, town departments, and external agencies may result in changes to the proposed OPA before it is recommended for adoption by Council at a future Planning and Development Council meeting. It is anticipated that a recommendation report, including any updates to the OPA, will be presented to Planning and Development Council in 2021. At that time, should Council adopt the recommended OPA, it would then go to Halton Region for review and final approval as Halton Region is the town's approval authority on this matter. This process may take up to a year or longer, given the ongoing Regional Official Plan Review and the Region's duty to coordinate forecasted growth to the year 2051 Region-wide.

CLIMATE CHANGE:

The draft OPA will be reviewed to ensure conformity with the town's sustainability objectives in the Livable Oakville Plan. It will also be reviewed in the context of Council declaring a Climate Change Emergency on June 24, 2019 to provide opportunities to reduce the impact of, and increase the resilience of, land uses on climate change.

From: Planning Services Department
 Date: November 11, 2020
 Subject: **Public Meeting Report - Town-initiated Official Plan Amendment - Hospital District (File No. 42.15.57)**

CONSIDERATIONS:

(A) PUBLIC

The draft OPA was available for review on the town’s website (<https://www.oakville.ca/planoakville/hospital-district-study.html>) on or before November 2, 2020. Notice of the statutory Public Meeting was published in the Oakville Beaver on October 29, 2020. Additional notices were mailed to property owners within the Hospital District, required agencies and the area residents association. An email notice was also sent to the town’s Official Plan Review contact list (>1300 contacts) and those who registered at the study’s previous public workshop.

(B) FINANCIAL

There are no financial implications arising from this report.

(C) IMPACT ON OTHER DEPARTMENTS & USERS

The draft OP was circulated to internal departments for review.

(D) CORPORATE AND/OR DEPARTMENT STRATEGIC GOALS

This report addresses the corporate strategic goal to:

- enhance our economic environment
- continuously improve our programs and services
- be innovative in everything we do
- be dedicated in everything we do
- be the most livable town in Canada

(E) COMMUNITY SUSTAINABILITY

The proposed OPA for the Hospital District is intended to enhance the social, economic and built environment of the area surrounding the Oakville Trafalgar Memorial Hospital.

APPENDICES:

- Appendix A Draft Official Plan Amendment, Hospital District
- Appendix B Area Specific Plan: A Future for Health and Innovation (Oakville Hospital District), prepared by Sajecki Planning

NOTE: The background information and technical studies provided with the Area Specific Plan (Appendices A through J to that document) may be found on the Hospital District webpage at <https://www.oakville.ca/planoakville/hospital-district-study.html>
