- a) public transit *infrastructure*, facilities, services and improved pedestrian access to public transit;
- b) public parking;
- c) *affordable housing* for a wide array of socio-economic groups;

28.6.3 The public benefits should generally be provided in the area in which the bonusing is provided.

28.6.4 Bonus by-laws should only be considered where such increases can be accommodated by the existing or improved *infrastructure*. Studies supporting the increased height and/or density proposed may be required to address *infrastructure* capacity for the subject *development* as well as the impacts on the surrounding area.

28.6.5 Bonus by-laws shall only be considered where such increases are *compatible* with the surrounding area.

- 28.6.6 Increased height and/or density provisions enacted in the Zoning By-law as outlined above shall specify the *development* standards that would apply where increases are to be permitted in accordance with this Plan.
- 28.6.7 The Town shall require the execution of agreements for *development*, which include increased height and/or density in exchange for public benefits.
