

Appendix “C” – Neighbourhood Comments

L. Radice-Santos/W. Santos – Email – March 25, 2020

Dear Town of Oakville,

This is an appeal to the proposed 21-storey residential building 1226-1230 White Oaks & 350 Lynwood Drive that we received in our mailbox.

In August 2019 Maclean’s magazine released their top communities list. Oakville continues to drop from the top of the list. Recently, moving back to Oakville from Burlington (now number 1 community in Canada), we feel that Oakville is becoming too overpopulated with little regard for the opinion of its citizens in the name of infrastructure development.

With the demolition of the apartments listed hundreds will be displaced. Oakville continues to accept building developments higher than regulations of the past contributing to traffic congestion, noise pollution, and general beauty of the land. Not only does the development of this 21-storey unit directly affect the view from our home, but we feel it will affect our privacy, the amount of traffic on Lynwood Drive, and safety of the children living in this community.

We do not support the decision for the above proposal and hope that you will consider this development carefully.
