

**Distributed at the Community Services Committee Meeting of September 16, 2019**  
**Re: Item 3 – Oakville Harbour West Shore Master Plan - Walkway Lighting**

**Town of Oakville**  
**Memorandum**

---

**To:** Mayor Burton and Members of Council

**From:** Chris Mark, Director Parks and Open Space

**Date:** September 16, 2019

**Subject:** **Community Services Committee Meeting - September 16, 2019**  
**Item 3 - Oakville Harbour West Shore Master Plan - Walkway**  
**Lighting (Appendix E)**

---

In the above noted report on this evening's CSC Agenda, at the time of printing, Appendix E was unavailable.

Please find attached Appendix E, correspondence from Halton Regional Police Services with respect to the walkway lighting.

Thank you

Christopher Mark  
Director, Parks and Open Space  
Ext. 3111

c. Colleen Bell, Commissioner Community Services  
K. Patrick, Manager Council and Committee Services

After looking at the site, I believe your best bet would be the standard 14-8" pole. Adding the 120 degree light shield would assist in blocking out the light to the residents on Walker St. The lights are less desirable to vandals as it high up and creates a wider light path. The lights provide lighting to the pathway which will eliminate culprit(s) any opportunity to hide in dark areas. Lighting is critical for parks and paths as it can provide people to feel safe while walking on the path at night. It been shown proper lighting reduces crime and the fear of crime.

After reading your below plans, I have no issues with the CPTED you guys did for the park and agree with your plan. Please insure the Town of Oakville maintains the the site lines with both the trees and the bushes.

Let me know if you need anything else,

Cst Harjeev Brar
